

### **Suggestion from Elaine Yeatts - DHP**

If a proposed regulation has been posted on Townhall and sent to PPG interested parties for comment, and no comment (or all positive comment) is received, the regulation should not need to be reviewed again at the Final stage by DPB, the Secretary and the Governor – all of which reviewed the identical regulation at the proposed stage, and there is no opposition, suggested changes, or amendments.

DPB could certify the status as described and make it available for submission to the Registrar.
