1	SUBTITLE IV.
2	GAS AND OIL.
3	Drafting note: Proposed Subtitle IV is created to logically organize provisions
4	relating to gas and oil and is divided into proposed Chapters 16 (the Virginia Gas and Oil
5	Act) and 17 (Offshore Energy Resources).
6	CHAPTER <u>22.1</u> <u>16</u> .
7	THE-VIRGINIA GAS AND OIL ACT.
8	Drafting note: Existing Chapter 22.1, designated as the Virginia Gas and Oil Act, is
9	retained as proposed Chapter 16. This chapter is divided into five articles, comprising the
10	four articles that currently exist in Chapter 22.1 and an additional article containing
11	existing § 62.1-195.1.
12	Article 1.
13	General Provisions.
14	Drafting note: Existing Article 1, relating to general provisions, is retained.
15	§ 45.1 361.1 45.2-xxx. Definitions.
16	As used in this chapter, unless the context clearly indicates otherwise requires a different
17	meaning:
18	"Abandonment of a well" or "cessation of well operations" means the time at which (i) a
19	gas or oil operator has ceased operation of a well and has not properly plugged the well and
20	reclaimed the site as required by this chapter, (ii) the time at which a gas or oil operator has
21	allowed the well to become incapable of production or conversion to another well type, or (iii)
22	the time at which the Director revokes a permit or forfeits a bond covering a gas or oil
23	operation.
24	"Associated facilities facility" means any facility utilized for gas or oil operations in the
25	Commonwealth, other than a well or a well site.
26	"Barrel" means forty two 42 U.S. gallons of liquids, including slurries, at a temperature
27	of civty 60 degrees Fahrenheit

28 "Board" means the Virginia Gas and Oil Board.

"Coalbed methane gas" means occluded natural gas produced from coalbeds and rock strata associated therewith.

"Coalbed methane gas well" means a well capable of producing coalbed methane gas.

"Coalbed methane gas well operator" means any person who <u>operates or</u> has been designated to operate or does operate a coalbed methane gas well.

"Coal claimant" means a person identified as possessing an interest in production royalties when a drilling unit is force-pooled or who asserts or possesses a claim to funds that are held in escrow, for a force-pooled coalbed methane gas well, or in suspense, for a voluntarily pooled coalbed methane gas well, by virtue of owning an interest in the coal estate contained within the drilling unit subject to the pooling order or agreement.

"Coal operator" means any person who <u>operates or</u> has the right to operate <u>or does</u> operate a coal mine.

"Coal owner" means any person who owns, leases, mines and produces, or has the right to mine and produce, a coal seam.

"Coal seam" means any stratum of coal twenty 20 inches or more in thickness, unless.

"Coal seam" includes a stratum of less than 20 inches in thickness if it (i) is being commercially worked, or can (ii) in the judgment of the Department could foreseeably be commercially worked and will require protection if wells are a well is drilled through it.

"Correlative <u>rights right</u>" means the right of each gas or oil owner having an interest in a single pool to have a fair and reasonable opportunity to obtain and produce his just and equitable share of production of the gas or oil in such pool or its equivalent without being required to drill unnecessary wells or incur other unnecessary expenses to recover or receive the gas or oil or its equivalent.

"Cubic foot of gas" means the volume of gas contained in one cubic foot of space at a standard pressure base of 14.73 pounds per square foot and a standard temperature base of sixty degrees Fahrenheit.

"Disposal well" means any well drilled or converted for the disposal of drilling fluids, produced waters, or other wastes associated with gas or oil operations.

"Drilling unit" means the acreage on which one gas or oil well may be drilled.

"Enhanced recovery" means (i) any activity involving injection of any air, gas, water, or other fluid into the productive strata; (ii) the application of pressure, heat, or other means for the reduction of viscosity of the hydrocarbons; or (iii) the supplying of additional motive force other than normal pumping to increase the production of gas or oil from any well, wells, or pool.

"Evidence of a proceeding or agreement" means written evidence that—(i) the coal claimant has_(i) filed and has pending a judicial or arbitration proceeding against the gas claimant to determine the ownership of the coalbed methane gas and the right to the funds held in escrow or suspense or (ii) the coal claimant and reached an agreement with the gas claimant have reached an agreement to apportion the funds between them.

"Exploratory well" means any well drilled to (i) to find and produce gas or oil in an unproven area, (ii) to find a new reservoir in a field previously found to be productive of gas or oil in another reservoir, or (iii) to extend the limits of a known gas or oil reservoir.

"Field rules" means rules established by order of the Virginia Gas and Oil Board that define a pool, drilling units, production allowables, or other requirements for gas or oil operations within an identifiable area.

"First point of sale" means, for oil, the point at which the oil is (i) sold, exchanged, or transferred for value from one person to another person, or (ii) when used by the original owner of the oil uses the oil, the point at which the oil is, transported off the permitted site and delivered to another facility for use by the original owner; and. "First point of sale" means, for gas, the point at which the gas is (a) sold, exchanged, or transferred for value to any interstate or intrastate pipeline, any local distribution company, or any person for use by such person, or (b) when the gas is used by the owner of the gas for a purpose other than the production or transportation of the gas, the point at which the gas is delivered to a facility for use.

"Fund" means the Gas and Oil Plugging and Restoration Fund.

"Gas" or "natural gas" means all natural gas, whether hydrocarbon—or, nonhydrocarbon, or any combination or mixture thereof, including hydrocarbons, hydrogen sulfide, helium, carbon dioxide, nitrogen, hydrogen, casing head gas, and all other fluids not defined as oil pursuant to this section.

"Gas claimant" means a person who is identified as possessing an interest in production royalties when a drilling unit is forced-pooled or who asserts or possesses a claim to funds that are held in escrow, for a force-pooled coalbed methane gas well, or in suspense, for a voluntarily pooled coalbed methane gas well, by virtue of owning an interest in the gas estate contained within the drilling unit subject to the pooling order or agreement.

"Gas or oil operations" means any_(i) activity relating to drilling, redrilling, deepening, stimulating, production, enhanced recovery, converting from one type of a well to another, combining or physically changing to allow the migration of fluid from one formation to another, or plugging or replugging any well; ground disturbing (ii) ground-disturbing activity relating to the development, construction, operation—and, or abandonment of a gathering pipeline; the (iii) development, operation, maintenance,—and or restoration of any site involved with gas or oil operations; or—any_(iv) work undertaken at a facility used for gas or oil operations. The term "Gas or oil operations" embraces all of the land or property that is used for or—which_that contributes directly or indirectly to a gas or oil operation, including all roads.

"Gas or oil operator" means any person who <u>operates or</u> has been designated to operate or does operate any gas or oil well or gathering pipeline.

"Gas or oil owner" means any person who owns, leases, has an interest in, or who has the right to explore for, drill, or operate a gas or oil well as principal or as lessee. In the event that If the gas is owned separately from the oil, the definitions contained herein this definition shall apply separately to the gas owner or oil owner.

"Gas title conflicts" means conflicting ownership claims between gas claimants; the term. "Gas title conflicts" does not include conflicting ownership claims between a gas claimants claimant and a coal-claimants claimant.

"Gathering pipeline" means—(i) a pipeline—which that is used or intended for use in the transportation of gas or oil from the well to (i) a transmission pipeline regulated by the United States U.S. Department of Transportation or the State Corporation Commission or (ii) a pipeline which is used or intended for use in the transportation of gas or oil from the well to an off site offsite storage, marketing, or other facility where the gas or oil is sold.

"Geophysical operator" means a person who has the right to explore for gas or oil using ground-disturbing ground-disturbing geophysical exploration.

"Gob" means the de-stressed zone associated with any full-seam extraction of coal that extends above and below the mined-out coal seam.

"Ground disturbing" "Ground-disturbing" means any changing of land which may that could result in soil erosion from water or wind and the movement of sediments into state waters, including, but not limited to, clearing, grading, excavating, drilling, and transporting and filling of land.

"Ground disturbing "Ground-disturbing geophysical exploration" or "geophysical operation" means any activity in search of gas or oil that breaks or disturbs the surface of the earth, including but not limited to road construction or core drilling. The term shall does not include the conduct of (i) a gravity, magnetic, radiometric and, or similar geophysical surveys, and survey or (ii) a vibroseis or other similar seismic surveys survey.

"Injection well" means any well used to inject or otherwise place any substance associated with gas or oil operations into the earth or underground strata for disposal, storage, or enhanced recovery.

"Inspector" means the Virginia Gas and Oil Inspector, appointed by the Director pursuant to §-45.1-361.4, 45.2-xxx or such other public officer, employee, or other authority—as may who in—emergencies be acting in the stead an emergency acts instead of, or by law—be is assigned the duties of, the Virginia Gas and Oil Inspector.

"Log" means the written record progressively describing all strata, water, oil, or gas encountered in drilling, depth and thickness of each bed or seam of coal drilled through,

quantity of oil, volume of gas, pressures, rate of fill-up, <u>fresh freshwater-bearing</u> and <u>salt water-bearing</u> horizons and depths, cavings strata, casing records, and <u>such</u> other information <u>as is</u> usually recorded in the normal procedure of drilling. <u>The term shall also include "Log" includes</u> electrical survey records or electrical survey logs.

"Mine" means an underground or surface excavation or development with or without shafts, slopes, drifts, or tunnels for the extraction of coal, minerals, or nonmetallic materials, commonly designated as mineral resources, and the hoisting or haulage equipment or appliances, if any, for the extraction of the mineral resources. The term embraces "Mine" includes all of the land or property of the mining plant, including both the surface and subsurface, that is used in or contributes directly or indirectly to the mining, concentration, or handling of the mineral resources, including all roads.

"Mineral" shall have means the same meaning as ascribed to it as that term is used in § 45.1-180 45.2-xxx.

"Mineral operator" means any person who <u>operates or</u> has the right to-or does operate a mineral mine.

"Mineral owner" means any person who owns <u>minerals</u>, leases <u>minerals</u>, mines and produces <u>minerals</u>, or <u>who</u> has the right to mine and produce minerals and to appropriate such minerals that he produces <u>therefrom from it</u>, either for himself or for himself and others.

"Nonparticipating operator" means a gas or oil owner of a tract that is included in a drilling unit who elects to share in the operation of the well on a carried basis by agreeing to have his proportionate share of the costs allocable to his interest charged against his share of production from the well.

"Offsite disturbance" means any soil erosion, water pollution, or escape of gas, oil, or waste from gas, oil, or geophysical operations off a permitted site which that results from activity conducted on a permitted site.

"Oil" means natural crude oil or petroleum and other hydrocarbons, regardless of gravity, which that are produced at the well in liquid form by ordinary production methods and which are not the result of condensation of gas after it leaves the underground reservoir.

"Orphaned well" means any well abandoned prior to July 1, 1950, or for which no records exist concerning its drilling, plugging, or abandonment.

"Participating operator" means a gas or oil owner who elects to (i) bear a share of the risks and costs of drilling, completing, equipping, operating, plugging, and abandoning a well on a drilling unit and to (ii) receive a share of production from the well equal to the proportion which that the acreage in the drilling unit he owns or holds under lease bears to the total acreage of the drilling unit.

"Permittee" means any gas, oil, or geophysical operator holding a permit for gas, oil, or geophysical operations issued under authority of this chapter.

"Person under a disability"-shall have means the same-meaning as ascribed to it as that term is defined in § 8.01-2.

"Pipeline" means any pipe above or below the ground used or to be used to transport gas or oil.

"Plat" or "map" means a map, drawing, or print showing the location of a well-or wells, mine, quarry, or other information required under this chapter.

"Pool" means an underground accumulation of gas or oil in a single and separate natural reservoir. It is characterized by a single natural pressure system so that production of gas or oil from one part of the pool tends to or does affect the reservoir pressure throughout its extent. A pool is bounded by geologic barriers in all directions, such as geologic structural conditions, impermeable strata, or water in the formation, so that it is effectively separated from any other pool which that may be present in the same geologic structure. A "coalbed methane pool" means an area which that is underlain or appears to be underlain by at least one coalbed capable of producing coalbed methane gas.

"Project area" means the well, and any gathering pipeline, associated facilities facility, roads road, and any other disturbed area, all of which are permitted as part of a gas, oil, or geophysical operation.

"Restoration" means all activity required to return a permitted site to other use after gas, oil, or geophysical operations have ended, as approved in the operations plan for the permitted site.

"Royalty owner" means any owner of gas or oil in place, or owner of gas or oil rights, who is eligible to receive payment based on the production of gas or oil.

"State waters" means all water, on the surface and under the ground, that is wholly or partially within or bordering the Commonwealth or within its jurisdiction and which affect that affects the public welfare.

"Stimulate" "Stimulation" means any action taken by a gas or oil operator to increase the inherent productivity of a gas or oil well, including, but not limited to, fracturing, shooting, or acidizing, but excluding (i) cleaning out, bailing, or workover operations and (ii) the use of surface-tension reducing agents, emulsion breakers, paraffin solvents, and or other agents which that affect the gas or oil being produced, as distinguished from the producing formation.

"Storage well" means any well used for the underground storage of gas.

"Surface owner" means any person who is the owner of record of the surface of the land.

"Waste" or "escape of resources" means (i) physical waste, as that term is generally understood in the gas and oil industry; (ii) the inefficient, excessive, improper use, or unnecessary dissipation of reservoir energy; (iii) the inefficient storing of gas or oil; (iv) the locating, drilling, equipping, operating, or producing of any gas or oil well in a manner that causes, or tends to cause, a reduction in the quantity of gas or oil ultimately recoverable from a pool under prudent and proper operations, or that causes or tends to cause unnecessary or excessive surface loss or destruction of gas or oil; (v) the production of gas or oil in excess of transportation or marketing facilities; (vi) the amount reasonably required to be produced in the proper drilling, completing, or testing of the well from which it is produced, except gas

produced from an oil well or condensate well pending the time when with reasonable diligence the gas can be sold or otherwise usefully utilized on terms and conditions that are just and reasonable; or (vii) underground or above ground aboveground waste in the production or storage of gas, oil, or condensate, however caused. The term "waste" "Waste" does not include gas vented from a methane drainage borehole or coalbed methane gas wells, well where necessary for safety reasons or for the efficient testing and operation of a coalbed methane gas wells; well, nor does it include the plugging of a coalbed methane gas wells well for the recovery of the coal estate.

"Waste from gas, oil, or geophysical operations" means any substance other than gas or oil—which is that (i) is produced or generated during or results from the development, drilling, and completion of wells any well and associated facilities facility or the development and construction of gathering pipelines or (ii) is produced or generated during or results from well, pipeline, and associated facilities facility operations, including, but not limited to, brines and produced fluids other than gas or oil. In addition, this term shall include "Waste from gas, oil, or geophysical operations" includes all rubbish and debris, including all material generated during or resulting from well plugging, site restoration, or the removal and abandonment of gathering pipelines and associated facilities.

"Water well" means any well drilled, bored, or dug into the earth for the sole purpose of extracting therefrom from it potable, fresh, or usable water for household, domestic, industrial, agricultural, or public use.

"Well" means any shaft or hole sunk, drilled, bored, or dug into the earth or into underground strata for the extraction, injection, or placement of any gaseous or liquid substance, or any shaft or hole sunk or used in conjunction with such extraction, injection, or placement.

The term shall "Well" does not include any shaft or hole sunk, drilled, bored, or dug into the earth for the sole purpose of pumping or extracting therefrom from it potable, fresh, or usable water for household, domestic, industrial, agricultural, or public use and shall does not include any water boreholes borehole, methane drainage boreholes borehole where the methane is

vented or flared rather than produced and saved, subsurface <u>boreholes borehole</u> drilled from the mine face of an underground coal mine, any other <u>boreholes borehole</u> necessary or convenient for the extraction of coal or drilled pursuant to a uranium exploratory program carried out pursuant to the laws of <u>this the</u> Commonwealth, or any coal or non-fuel mineral core hole or borehole <u>drilled</u> for the purpose of exploration.

Drafting note: The phrase "but not be limited to" is removed following the term "including" on the basis of § 1-218, which states that throughout the Code "'Includes' means includes, but not limited to." Technical changes are made, including changes pursuant to § 1-227, which states that throughout the Code any word used in the singular includes the plural and vice versa. Redundant text is removed and changes are made for clarity, including changes that rephrase definitions and divide one sentence into two in the definitions of "coal seam" and "gas or oil owner." Some existing clause designations are moved and new clause designations are inserted. The definition of "fund" is deleted because the chapter contains two funds, neither of which is referenced without a citation. The definition of "waste" is relocated to precede the definition of "waste from gas, oil, or geophysical operations" to place them in alphabetical order. Language is updated for modern usage and clarity.

§ 45.1-361.2 45.2-xxx. Regulation of coal surface mining not affected by chapter.

Nothing in this chapter shall be construed as limiting the powers of the Director relating to coal surface mining operations and reclamation. The provisions of Chapter-19_10 (§-45.1-226 45.2-xxx et seq.), including requirements for permits and bonds, shall apply to gas, oil, or geophysical operations located on areas_any area for which a coal surface mining permit is in effect and shall be in addition to the requirements for gas, oil, or geophysical operations set forth in this chapter, except that well work and the operation of pipelines on areas_an area that have has been reclaimed by the surface mine operator or the Director shall be treated as postmining uses. The Director shall give special consideration to the development and promulgation adoption of variances from the postmining use requirements of Chapter-19 10 for

268 gas, oil, or geophysical operations; however, all such variances shall be consistent with the 269 provisions of Chapter 19 10. 270 Drafting note: Technical changes are made pursuant to § 1-227, which states that 271 throughout the Code any word used in the singular includes the plural and vice versa. 272 §-45.1-361.3 45.2-xxx. Construction; purposes. 273 The provisions of this chapter shall be liberally construed so as to effectuate the 274 following purposes: 275 1. To foster, encourage, and promote the safe and efficient exploration for and 276 development, production, utilization, and conservation of the Commonwealth's gas and oil 277 resources; 278 2. To provide a method of gas and oil conservation for maximizing exploration, 279 development, production, and utilization of gas and oil resources; 280 3. To recognize and protect the rights of persons any person owning interests an interest 281 in gas or oil resources contained within a pool; 282 4. To ensure the safe recovery of coal and other minerals; 283 5. To maximize the production and recovery of coal without substantially affecting the 284 right of a gas or oil owner proposing to drill a gas or oil well to explore for and produce gas or 285 oil: 6. To protect the citizens and the environment of the Commonwealth from the public 286 287 safety and environmental risks associated with the development and production of gas or oil; 288 and 289 7. To recognize that the use of the surface for gas or oil development shall be only that 290 which such use as is reasonably necessary to obtain the gas or oil. 291 Drafting note: Language is updated for modern usage, "purposes" is added to the 292 catchline to more accurately reflect the content of the section, and technical changes are 293 made, including changes pursuant to § 1-227, which states that throughout the Code any

word used in the singular includes the plural and vice versa.

§ 45.1-361.13 45.2-xxx. Virginia Gas and Oil Board; membership; compensation.

A. The Virginia Gas and Oil Board is hereby established as a policy board in the executive branch of state government. The purpose of the Board shall be composed of seven members and shall have the powers and duties as specified under is to carry out the provisions of this chapter.

B. The Governor Board shall appoint, subject to confirmation by the General Assembly, the chairman and six additional have a total membership of seven members that shall consist of six nonlegislative citizen members and one ex officio member. Nonlegislative citizen members of the Board shall be appointed as follows: two for an initial term of two years, two for an initial term of four years, and three for an initial term of six years. Thereafter, the members shall be appointed for terms of six years. At all times, the Board shall consist of the following qualified members: the Director or his designee; one but not more than one individual who is a representative of the gas and oil industry; and not the coal industry, one but not more than one individual who is a representative of the coal industry; and not the gas and oil industry, and four other individuals who are not representatives of the gas, oil, or coal industry, to be appointed by the Governor, subject to confirmation by the General Assembly. The Director or his designee shall serve ex officio with voting privileges. A chairman shall be designated by the Governor from among the membership of the Board.

C. All vacancies occurring on the Board shall be filled by the Governor, subject to confirmation by the General Assembly, for the unexpired term in the same manner as the original appointment within sixty 60 days of the occurrence of the vacancy. As the terms The ex officio member of the Board shall serve terms coincident with such member's term of office, respectively, of the members expire, the Governor shall appoint, subject to confirmation by the General Assembly, to fill the vacancies so occasioned, qualified persons whose terms shall be for. Appointments to fill vacancies, other than by expiration of a term, shall be for the unexpired terms. After the initial staggering of terms, nonlegislative citizen members shall be appointed for a term of six years from the day on which that the term of their immediate predecessor

expired. The All members may be reappointed. Nonlegislative citizen members of the Board shall be citizens of the Commonwealth, and the Governor shall seek to appoint persons who reside in localities with significant oil or gas production or storage.

C. D. Each member of the Board shall receive compensation and expenses for the performance of his duties as provided in accordance with the provisions of § 2.2-2813. All members shall be reimbursed for all reasonable and necessary expenses incurred in the performance of their duties as provided in §§ 2.2-2813 and 2.2-2825. Funding for the costs of compensation and expenses of the members shall be provided by the Department.

Drafting note: This section is relocated from Article 2. Language is updated to reflect current language preferred in the Code for commissions, boards, and councils. Technical changes are made.

§ 45.1-361.4 45.2-xxx. Duties and responsibilities of the Director.

A. The Director-shall have has the jurisdiction and authority necessary to enforce the provisions of this chapter. The Director-shall have has the power and duty to regulate gas, oil, or geophysical operations, collect fees, and perform other responsibilities as may be prescribed in regulations promulgated adopted by the Department or the Board.

B. The Director shall appoint the Gas and Oil Inspector.

Drafting note: The term "regulations promulgated" is changed to "regulations adopted" in keeping with recent title revisions because "adopt" is more widely used and includes the promulgation process. Language is updated for modern usage.

§ 45.1-361.5 45.2-xxx. Exclusivity of regulation and enforcement.

No county, city, town locality or other political subdivision of the Commonwealth shall impose any condition, or require any other local license, permit, fee, or bond that varies from or is in addition to the requirements of this chapter to perform any gas, oil, or geophysical operations which varies from or is in addition to the requirements of this chapter operation. However, no provision of this chapter shall be construed to limit or supersede the jurisdiction and or requirements of any other state agencies agency, local land-use ordinances ordinance,

regulations regulation of general purpose, or §§ 58.1-3712, 58.1-3713, 58.1-3713.3, 58.1-3713.4, 58.1-3741, 58.1-3742, and or 58.1-3743.

Drafting note: Language is updated for modern usage and technical changes are made, including changes pursuant to § 1-227, which states that throughout the Code any word used in the singular includes the plural and vice versa.

§ 45.1-361.6 45.2-xxx. Confidentiality.

The Director shall hold confidential all logs, surveys, and reports relating to the drilling, completion, and testing of a well—which that are filed by a gas or oil—operators operator under this chapter for a period of—ninety_90 days after the completion of the well or—eighteen_18 months after the total depth of the well has been reached, whichever occurs first. Upon receipt of a gas, oil, or geophysical operator's written request, the Director shall hold confidential—this such information concerning an exploratory well or corehole for a period of two years after completion of the well or four years from the date such well or hole reaches total depth, whichever occurs first. The Director, for good cause shown by the gas, oil, or geophysical operator, may annually extend the period of time for which information regarding exploratory drilling is held confidential. However, the Director shall upon request provide a copy of any survey or log for strata through the lowest coal seam to the coal owner.

Drafting note: Technical changes are made, including changes pursuant to § 1-227, which states that throughout the Code any word used in the singular includes the plural and vice versa.

§ 45.1-361.7 45.2-xxx. Expenditure of funds.

All funds, except civil—charges penalties collected pursuant to §—45.1—361.8_45.2-xxx, collected by or appropriated to the Department pursuant to the provisions of this chapter shall be expended only for the purpose of carrying out the provisions of this chapter.

Drafting note: The term "civil charges" is updated to the preferred term "civil penalties."

§-45.1-361.8 45.2-xxx. Violations; penalties.

A. Any person who violates or refuses, fails, or neglects to comply with any regulation or order of the Board, Director, or Inspector, any condition of a permit, or any provision of this chapter shall be is guilty of a Class 1 misdemeanor.

B. In addition, any person who violates any provision of this chapter regulation or order of the Board, Director, or Inspector, any condition of a permit, or any regulation or order of the Board, Director, or Inspector provision of this chapter shall, upon such finding by an appropriate circuit court, be assessed a civil penalty of not more than \$10,000 for each day of such violation. All civil penalties under this section shall be recovered in a civil action brought by the Attorney General in the name of the Commonwealth. The court shall direct that all civil penalties assessed under this section be paid into the treasury of the county or city wherein lies where the gas, oil, or geophysical operation determined by the court to be in violation is located.

C. The Board, with the consent of the gas, oil, or geophysical operator, may provide, in an order issued by the Board against such operator, for the payment of civil charges penalties for past violations in specific sums not to exceed the limit specified in subsection B of this section. Such civil charges penalties shall be instead of any appropriate civil penalty which that could be imposed under this section and shall not be subject to the provision provisions of § 2.2-514. Civil charges penalties collected under this section shall be paid into the treasury of the county or city wherein lies where the gas, oil, or geophysical operation subject to the order issued by the Board is located.

Drafting note: The term "civil charges" is updated to the preferred term "civil penalties." Technical changes are made and language is updated for modern usage.

§-45.1-361.9_45.2-xxx. Appeals; venue; standing.

A. Any order or decision of the Board may be appealed to the appropriate circuit court. Whenever a coal owner, coal operator, gas owner, gas operator, or operator of a gas storage field certificated by the State Corporation Commission is a party in such action, the court shall hear such appeal de novo. The court shall have has the power to enter interlocutory orders as may be necessary to protect the rights of all interested parties pending a final decision.

B. Unless the parties otherwise agree, the venue for court review shall be the county or city—wherein lies where the gas, oil, or geophysical operation which is the subject of such order or decision is located.

C. The Director and all parties required to be given notice of hearings of the Board pursuant to the provisions of §-45.1-361.19 45.2-xxx shall have standing to appeal any order or decision of the Board-which that directly affects them. The permittee or permit applicant, the Director, and those parties with standing to object, pursuant to the provisions of § 45.1-361.30, 45.2-xxx shall have standing to appeal any order or decision of the Board-which that directly affects them; provided, however, with the exception of. However, except for an aggrieved permit applicant or the Director, no person shall have standing to appeal a decision of the Board concerning a permit application unless such person has previously filed an objection with the Director pursuant to the provisions of §-45.1-361.35 45.2-xxx. The filing of any petition for appeal concerning the issuance of a new permit which that was objected to pursuant to the provisions of § 45.1-361.11, § 45.1-361.12 45.2-xxx or 45.2-xxx or by a gas storage field operator who asserts that the proposed well work will adversely affect the operation of a State Corporation Commission certificated gas storage field certificated by the State Corporation Commission shall automatically stay the permit until such stay is dissolved or the appeal is decided by the circuit court. However, in an appeal by a gas storage field operator, such automatic stay shall not apply to an oil, gas, or coalbed methane wells well completed more than one hundred 100 feet above the cap rock above the storage stratum.

Drafting note: Language is updated for clarity and modern usage. Technical changes are made.

§ <u>45.1 361.10 45.2-xxx</u>. Duplicate leases.

Any person, either as either principal or agent, who executes a lease of land or right therein for drilling for gas or oil, or for the development or production of gas or oil, shall-do so in duplicate. One furnish a copy of the lease, duly executed by the lessee, shall be furnished to the lessor.

430	Drafting note: The obsolete requirement that every lease be executed in duplicate is
431	stricken. Technical changes are made and language is updated for modern usage.
432	§ 45.1-361.11 45.2-xxx. Objections by coal owner.
433	A. In deciding on objections by a coal owner to a proposed permit modification or
434	drilling unit modification, only the following questions shall be considered:
435	1. Whether the work can be done safely with respect to persons engaged in coal mining
436	at or near the well site; and
437	2. Whether the well work is an unreasonable or arbitrary exercise of the well operator's
438	right to explore for, market, and produce oil and gas.
439	B. In deciding on objections by a coal owner to the establishment of a drilling unit, the
440	issuance of a permit for a new well, or the stimulation of a coalbed methane gas well, the
441	following safety aspects shall first be considered, and no order or permit shall be issued where
442	the evidence indicates that the proposed <u>activities</u> <u>activity</u> will be unsafe:
443	1. Whether the drilling unit or drilling location is above or in close proximity to any
444	mine opening or shaft, entry, travelway, airway, haulageway, drainageway, or passageway, or to
445	any proposed extension thereof, in any operated or abandoned or operating coal mine, or in any
446	coal mine already surveyed and platted but not yet being operated;
447	2. Whether the proposed drilling can reasonably be done through an existing or planned
448	pillar of coal, or in close proximity to an existing well or such pillar of coal, taking into
449	consideration the surface topography;
450	3. Whether the proposed well can be drilled safely or the proposed coalbed methane gas
451	well can be stimulated safely, taking into consideration the dangers from creeps, squeezes, or
452	other disturbances due to the extraction of coal; and
453	4. The extent to which the proposed drilling unit or drilling location or stimulation of the
454	coalbed methane gas well unreasonably interferes with the safe recovery of coal, oil, and gas.
455	C. The following questions with respect to the drilling unit or drilling location of a new
456	well or stimulation of a new coalbed methane gas well shall also be considered:

- 1. The extent to which the proposed drilling unit or drilling location or coalbed methane gas well stimulation will unreasonably interfere with present or future coal mining operations;

 2. The feasibility of moving the proposed drilling unit or drilling location to a mined-out
 - 3. The feasibility of a drilling moratorium for not more than two years in order to permit the completion of coal mining operations;
 - 4. The method proposed for the recovery of coal and gas;
 - 5. The practicality of locating the unit or the well on a uniform pattern with other units or wells;
 - 6. The surface topography and use; and

area, an area below the coal outcrop, or to some other area;

7. Whether the decision will substantially affect the right of the gas operator to explore for and produce the gas.

The factors in this subsection C of this section are not intended to and shall not be construed to authorize the Director, or the Board under § 45.1 361.36 45.2-xxx, to supersede, impair, abridge, or affect any contractual rights or obligations now or hereafter existing between the respective owners of coal and gas or any interest therein.

Drafting note: Language is updated for clarity. Technical changes are made.

§ 45.1-361.12 45.2-xxx. Distance limitations of certain wells.

A. If the well operator and the objecting coal owners who are present or represented at the a hearing to consider the objections to the proposed drilling unit or location are unable to agree upon a drilling unit or location for a new well within 2,500 linear feet of the location of an existing well or a well for which a permit application is on file, then the permit or drilling unit shall be refused.

B. The minimum distance—<u>limitations</u> <u>limitation</u> established by this section shall not apply if the proposed well will (i) be drilled through an existing or planned pillar of coal required for protection of a preexisting well drilled to any depth, and the proposed well will (ii)

483	neither require enlargement of the pillar nor otherwise have an adverse effect on existing or
484	planned coal mining operations.
485	Drafting note: Language is updated for clarity. Technical changes are made.
486	Article 2.
487	Gas and Oil Conservation.
488	Drafting note: Existing Article 2, relating to gas and oil conservation, is retained.
489	§-45.1-361.14_45.2-xxx. Meetings of the Board; notice; general powers and duties.
490	A. The Board shall schedule a monthly meeting at a time and place designated by the
491	chairman. Should If no petition for action be is filed with the Board prior to such a meeting, the
492	meeting may be cancelled canceled. Notification or cancellation of each meeting shall be given
493	in writing to the other members by the chairman at least five days in advance of the meeting.
494	Four members shall constitute a quorum for the transaction of any business which shall come
495	that comes before the Board. All determinations of the Board shall be by majority vote of the
496	quorum present.
497	B. The Board-shall have has the power necessary to execute and carry out all of its duties
498	specified in this chapter. The Board is authorized to investigate and inspect-such records and
499	facilities as-are necessary and proper to perform its duties under this chapter. The Board may
500	employ-such personnel and consultants as-may be necessary to perform its duties under this
501	chapter.
502	Drafting note: Language is updated for clarity.
503	§ 45.1 361.15 45.2-xxx. Additional duties and responsibilities of the Board.
504	A. In executing its duties under this chapter, the Board shall:
505	1. Foster, encourage, and promote the safe and efficient exploration for and
506	development, production, and conservation of the gas and oil resources located in the
507	Commonwealth;
508	2. Administer a method of gas and oil conservation for the purpose of maximizing
509	exploration, development, production, and utilization of gas and oil resources;

510	3. Administer procedures for the recognition and protection of the rights of gas or oil
511	owners with interests in gas or oil resources contained within a pool;
512	4. Promote the maximum production and recovery of coal without substantially affecting
513	the right of a gas owner proposing a gas well to explore for and produce gas; and
514	5. Hear and decide appeals of Director's decisions and orders issued under Article 3-of
515	this chapter (§ 45.2-xxx et seq.).
516	B. Without limiting its general authority, the Board-shall have has the specific authority
517	to issue rules, regulations, or orders pursuant to the provisions of the Administrative Process Act
518	(§ 2.2-4000 et seq.) in order to:
519	1. Prevent waste through the design, spacing, or unitization of wells, pools, or fields.
520	2. Protect correlative rights.
521	3. Enter spacing and pooling orders.
522	4. Establish drilling units.
523	5. Establish maximum allowable production rates for the prevention of waste and-for the
524	protection of correlative rights.
525	6. Provide for the maximum recovery of coal.
526	7. Classify pools and wells as gas, oil, gas and oil, or coalbed methane gas.
527	8. Collect data, make investigations and inspections, examine property, leases, papers,
528	books, and records, and require or provide for the keeping of records and the making of reports.
529	9. Set application fees.
530	10. Govern practices and procedures before the Board.
531	11. Require additional data from parties to any hearing.
532	12. Take-such actions as are reasonably necessary to carry out the provisions of this
533	chapter.
534	Drafting note: Technical changes are made and language is updated for modern
535	usage.
536	§-45.1-361.16 45.2-xxx. Applicability and construction.

537	A. The provisions of this article-shall apply to all lands in the Commonwealth, whether
538	publicly or privately owned. However, no well commenced prior to July 1, 1990, shall be
539	required to be plugged or abandoned solely for purposes of complying with the conservation
540	provisions contained in of this article.
541	B. No provision-contained in of this article shall be construed to grant to the Board the
542	authority or power to fix prices of gas or oil.
543	Drafting note: Language is updated for modern usage.
544	§-45.1-361.17_45.2-xxx. Statewide spacing of wells.
545	A. Unless prior approval has been received from the Board or a provision of the field or
546	pool rules so allows:
547	1. Wells No well drilled in search of oil shall not be located closer than 1,250 feet to any
548	well completed in the same pool; however, this spacing requirement is subject to §-45.1-361.12
549	<u>45.2-xxx</u> ;
550	2.—Wells No well drilled in search of gas shall-not be located closer than 2,500 feet to
551	any other well completed in the same pool, or closer than 2,500 feet to any storage well within
552	the boundary of a gas storage field certificated by the State Corporation Commission prior to
553	January 1, 1997, if the well to be drilled is to be completed within the same horizon as the
554	certificated gas storage field; and
555	3.—A No well shall—not be drilled closer to the boundary of the acreage supporting the
556	well, whether such acreage is a single leasehold or other tract or a contractual or statutory
557	drilling unit, than one-half of the minimum well spacing distances prescribed in this section.
558	B. Unless prior approval has been received from the Board or a provision of the field or
559	pool rules so allows:
560	1. Wells No well drilled in search of coalbed methane gas shall not be located closes
561	than 1,000 feet to any other coalbed methane gas well, or in the case of a coalbed methane gas
562	wells well located in the gob, such wells shall not be located closer than 500 feet to any other
563	coalbed methane gas-wells well located in the gob.

2.—A No coalbed methane gas well shall—not be drilled closer than 500 feet, or in the case
of such a well located in the gob, not closer than 250 feet, from the boundary of the acreage
supporting the well, whether such acreage is a single leasehold or other tract or a contractual or
statutory drilling unit.

3. The spacing limitations set forth in this subsection are subject to the provisions of §§ 45.1 361.11 45.2-xxx and 45.1 361.12 45.2-xxx.

Drafting note: Language is updated for modern usage and clarity and technical changes are made. Well spacing minimums are rephrased as prohibitions for clarity and consistency.

§ 45.1-361.18 45.2-xxx. Voluntary pooling of interests in drilling units; validity of unit agreements.

A. When two or more separately owned tracts are embraced within a drilling unit, or when there are separately owned interests in all or a part of any such drilling unit, the gas or oil owners owning such interests may pool their interests for the development and operation of the drilling unit by voluntary agreement. Such agreements agreement may be based on the exercise of pooling rights or rights to establish drilling units which that are granted in any gas or oil lease.

B. No voluntary pooling agreement between or among gas or oil owners shall be held to violate the statutory or common law of the Commonwealth which that prohibits monopolies or acts, arrangements, contracts, combinations, or conspiracies in restraint of trade or commerce.

Drafting note: A change is made pursuant to § 1-227, which states that throughout the Code any word used in the singular includes the plural and vice versa. Language is updated for modern usage.

§ 45.1-361.19 45.2-xxx. Notice of hearing; standing; form of hearing.

A. Any person who applies for a hearing in front of the Board pursuant to the provisions of §-45.1-361.20 45.2-xxx, -45.1-361.21 45.2-xxx, or-45.1-361.22 45.2-xxx shall simultaneously with the filing of such application, provide notice by commercial delivery service, return receipt

requested, or certified mail, return receipt requested, to each gas or oil owner, coal owner, or mineral owner having an interest underlying the tract—which_that is the subject of the hearing, and to the operator of any gas storage field certificated by the State Corporation Commission as a public utility facility whose certificated area includes the tract—which_that is the subject of the hearing. Whenever a hearing applicant is unable to provide such written notice because the identity or location of a person to whom notice is required to be given is unknown, the hearing applicant shall promptly notify the Board of such inability.

B. At least 10 days prior to a hearing, the Board shall publish its agenda in newspapers of general circulation that are widely circulated in the localities each locality where the lands that are the subject of the hearing are located. The agenda shall include the name of each applicant, the localities locality where the lands that are the subject of the hearing are located, the purpose of the hearing, and the date, time, and location thereof of the hearing.

C. The Board shall conduct all hearings on <u>applications</u> any <u>application</u> made to it pursuant to the formal litigated issues hearing provisions of the Administrative Process Act (§ 2.2-4000 et seq.). The applicant and any person to whom notice is required to be given pursuant to the provisions of subsection A of this section shall have standing to be heard at the hearing. The Board shall render its decision on such <u>applications</u> application within thirty 30 days of the hearing's closing date and shall provide notification of its decision to all parties to the hearing pursuant to the provisions of the Administrative Process Act.

Drafting note: Technical changes are made, including changes pursuant to § 1-227, which states that throughout the Code any word used in the singular includes the plural and vice versa. Language is updated for modern usage and the redundant phrase "that are widely circulated" is deleted.

§ 45.1-361.20 45.2-xxx. Field rules and drilling units for wells; hearings and orders.

A. In order to prevent the waste of gas or oil, or the drilling of unnecessary wells, or to protect correlative rights, the Board on its own motion or upon application of the gas or oil owner shall have the power to establish or modify drilling units. Drilling units, to the extent

reasonably possible, shall be of uniform shape and size for an entire pool. Any gas, oil, or royalty owner may apply to the Board for the establishment of field rules and the creation of drilling units for the field. Unless such motion is made or an application is received at least thirty 30 days prior to the next regularly scheduled monthly meeting of the Board, it shall not be heard by the Board at such meeting and shall be heard at the next meeting of the Board thereafter.

- B. At any hearing of the Board regarding the establishment or modification of drilling units, the Board shall make the following determinations:
- 1. Whether the proposed drilling unit is an unreasonable or arbitrary exercise of a gas or oil owner's right to explore for or produce gas or oil;
- 2. Whether the proposal would unreasonably interfere with the present or future mining of coal or other minerals;
 - 3. The acreage to be included in the order;
 - 4. The acreage to be embraced within each drilling unit and the its shape thereof;
 - 5. The area within which wells may be drilled on each unit; and
- 6. The allowable production of each well.
 - C. In establishing or modifying a drilling unit for coalbed methane gas wells, and in order to accommodate the unique characteristics of coalbed methane development, the Board shall require that drilling units conform to the mine development plan, if any, and if. If requested by the coal operator, well spacing shall correspond with mine operations, including the drilling of multiple coalbed methane gas wells on each drilling unit.
 - D. If an order to establish or modify a drilling unit will allow a well to be drilled into or through a coal seam, any coal owner within the area to be covered by the drilling unit may object to the establishment of the drilling unit. Upon a coal owner's objection, and without superseding, impairing, abridging₂ or affecting any contractual rights or obligations existing between coal and gas owners, the Board shall make its determination in accordance with the provisions of §§-45.1-361.11 45.2-xxx and 45.1-361.12 45.2-xxx.

E. The Board may continue a hearing to its next meeting to allow for further investigation and the gathering and taking of additional data and evidence. If at the time of a hearing there is not sufficient evidence for the Board to determine field boundaries, drilling unit size or shape, or allowable production, the Board may enter a temporary order establishing provisional drilling units, field boundaries, and allowable production for the orderly development of the pool pending receipt of the information necessary to determine the ultimate pool boundaries, spacing of wells for the pool, and allowable production. Upon additional findings of fact, the boundaries of a pool, drilling units for the pool, and allowable production may be modified by the Board.

F. Unless otherwise provided for by the Board, after an application for a hearing to establish or modify drilling units or pool boundaries has been filed, no additional—wells_well shall be permitted in the pool until the Board's order establishing or modifying the pool or units has been entered.

G. After the Board issues a field or pool spacing order which that creates drilling units or a pattern of drilling units for a pool, should if a gas or oil owner apply applies for a permit or otherwise indicate indicates his desire to drill a well outside of such drilling units or pattern of drilling units and thereby potentially extend the pool, the Board may, on its own motion or the motion of any interested person, require that the well be located and drilled in compliance with the provisions of the order affecting the pool.

Drafting note: Technical changes are made, including changes pursuant to § 1-227, which states that throughout the Code any word used in the singular includes the plural and vice versa. Language is updated for modern usage and clarity.

§-45.1-361.21 45.2-xxx. Pooling of interests in drilling units.

A. The Board, upon application from any gas or oil owner, shall enter an order pooling all interests in the a drilling unit for the development and operation thereof when:

1. Two or more separately owned tracts are embraced in a drilling unit;

- 2. There are separately owned interests in all or part of any such drilling unit and those owners having interests have not agreed to pool their interests; or
- 3. There are separately owned tracts embraced within the minimum statewide spacing requirements prescribed in §-45.1-361.17_45.2-xxx.

However, no pooling order shall be entered until the notice and hearing requirements of this article have been satisfied.

- B. Subject to any contrary provision contained in a gas or oil lease respecting the property, gas or oil operations incident to the drilling of a well on any portion of a unit covered by a pooling order shall be deemed to be the conduct of such operations on each tract in the unit. The portion of production allocated to any tract covered by a pooling order shall be in the same proportion as the acreage of that tract bears to the total acreage of the unit.
- C. All Every pooling orders order entered by the Board pursuant to the provisions of this section shall:
- 1. Authorize the drilling and operation of a well, including the stimulation of all coal seams in the case of a coalbed methane well when authorized pursuant to clause (iii) of subdivision 2 b of subsection F 2 b of §-45.1-361.29 45.2-xxx, subject to the permit provisions contained in Article 3 (§-45.1-361.27 45.2-xxx et seq.) of this chapter;
 - 2. Include the time and date when such order expires;
- 3. Designate the gas or oil owner who is authorized to drill and operate the well; provided, however, that except. Except in the case of a coalbed methane gas wells well, the such designated operators must have operator shall possess the right to conduct operations or have possess the written consent of owners with the right to conduct operations on at least 25% 25 percent of the acreage included in the unit;
- 4. Prescribe the conditions under which a gas or oil <u>owners owner</u> may become a participating <u>operators operator</u> or exercise <u>their rights a right</u> of election under subdivision 7 of this subsection;

- 5. Establish the sharing of all reasonable costs, including a reasonable supervision fee, between participating operators so that each participating operator pays the same percentage of such costs as his acreage bears to the total unit acreage;
 - 6. Require that <u>any</u> nonleasing gas or oil <u>owners</u> owner be provided with reasonable access to unit records submitted to the Director or Inspector;
 - 7. Establish a procedure for a gas or oil owner who received notice of the hearing—and who but does not decide to become a participating operator—may to elect—either to (i) sell or lease his gas or oil ownership to a participating operator, (ii) enter into a voluntary agreement to share in the operation of the well at a rate of payment mutually agreed to by the gas or oil owner and the gas or oil operator authorized to drill the well, or (iii) share in the operation of the well as a nonparticipating operator on a carried basis after the proceeds allocable to his share equal the following:
- a. In the case of a leased tract, 300 percent of the share of such costs allocable to his interest; or
- b. In the case of an unleased tract, 200 percent of the share of such costs allocable to his interest.
- D. Any gas or oil owner whose identity and location remain unknown at the conclusion of a hearing concerning the establishment of a pooling order for which public notice was given shall be deemed to have elected to lease his interest to the gas or oil operator at a rate to be established by the Board. The Board shall cause to be established an escrow account into which the unknown lessor's share of proceeds shall be paid and held for his benefit. Such escrowed proceeds shall be deemed to be unclaimed property and shall be disposed of pursuant to the provisions of the Virginia Disposition of Unclaimed Property Act (§ 55.1-2500 et seq.). Upon discovery of the identity and location of any unknown owner of an interest that is subject to escrow under the provisions of this subsection and is not subject to conflicting claims of ownership, the designated operator shall, within 30 days, file with the Board a petition for disbursement of funds to be considered at the next available hearing. The petition shall include a

detailed accounting of all funds deposited in escrow that are subject to the proposed disbursement.

E. Any person who does not make an election under the pooling order shall be deemed to have leased his gas or oil interest to the gas or oil well operator as the pooling order may provide.

F. Should If a gas or oil owner be is a person under a disability, the applicant for a pooling order may petition the appropriate circuit court to appoint a guardian ad litem pursuant to the provisions of § 8.01-261 for purposes of making the election provided for by this section.

- G. Any royalty or overriding royalty reserved in any lease which that is deducted from a nonparticipating operator's share of production shall not be subject to charges for operating costs but shall be separately calculated and paid to the royalty owner.
- H. The Board shall resolve all disputes arising among gas or oil operators regarding the amount and reasonableness of well operation costs. The Board shall, by regulation, establish allowable types of costs—which that may be shared in pooled gas or oil operations.

Drafting note: Language is added to the fourth sentence of subsection D to clarify that it is an interest rather than an owner that is subject to ownership claims. Changes are made pursuant to § 1-227, which states that throughout the Code any word used in the singular includes the plural and vice versa. Language is updated for modern usage and clarity.

§ 45.1-361.21:1 45.2-xxx. Coalbed methane gas; ownership.

A conveyance, reservation, or exception of coal shall not be deemed to include coalbed methane gas. Nothing in this section shall affect a coal operator's right to vent coalbed methane gas for safety purposes or release coalbed methane gas in connection with mining operations. The provisions of this section shall not affect any settlement of any dispute, or any judgment or governmental order, as to the ownership or development of coalbed methane gas made or entered into prior to the enactment of this provision April 13, 2010.

750	Drafting note: The date of enactment of the provision in cc. 730, 762 (2010) is
751	provided, and language is updated for clarity.
752	§-45.1-361.22 45.2-xxx. Pooling of interests for coalbed methane gas wells; conflicting
753	claims to ownership.
754	When If there are conflicting claims to the ownership of coalbed methane gas, the
755	Board, upon application from any claimant, shall enter an order pooling all interests or estates in
756	the coalbed methane gas drilling gas-drilling unit for the development and operation thereof. In
757	addition to the provisions of § 45.1-361.21 45.2-xxx, the following provisions shall apply:
758	1. Simultaneously with the filing of such application, the gas or oil owner applying for
759	the order shall provide notice pursuant to the provisions of §-45.1-361.19_45.2-xxx to each
760	person identified by the applicant as a potential owner of an interest in the coalbed methane gas
761	underlying the tract-which that is the subject of the hearing.
762	2. The Board shall cause to be established an escrow account into which the payment for
763	costs or proceeds attributable to the conflicting interests shall be deposited and held for the
764	interest of the claimants.
765	3. The coalbed methane gas well operator shall deposit into the escrow account any
766	money paid by a person claiming a contested ownership interest as a participating operator's
767	share of costs pursuant to the provisions of § 45.1-361.21 45.2-xxx and the order of the Board.
768	4. The coalbed methane gas well operator shall deposit into the escrow account one-
769	eighth of all proceeds attributable to the conflicting interests plus all proceeds in excess of
770	ongoing operational expenses as provided for under § 45.1-361.21 45.2-xxx and the order of the
771	Board attributable to a participating or nonparticipating operator.
772	5. The Board shall order payment of principal and accrued interest, less escrow account
773	fees, from the escrow account to conflicting claimants only after (i) a final decision of a court of
774	competent jurisdiction adjudicating the ownership of coalbed methane gas as between them is
775	<u>issued</u> ; (ii) a determination <u>is</u> reached by an arbitrator pursuant to § 45.1 361.22:1 45.2-xxx; or

(iii) an agreement is reached among all claimants owning conflicting estates in the tract in

question or any undivided interest therein. Upon receipt of an affidavit from conflicting claimants affirming such decision, determination, or agreement, the designated operator shall, within 30 days, file with the Board a petition for disbursement of funds on behalf of the conflicting claimants. The petition shall include a detailed accounting of all funds deposited in escrow that are subject to the proposed disbursement. The amount to be paid to the conflicting claimants shall be determined based on (a) the percentage of ownership interest of the conflicting claimants as shown in the operator's supplemental filing, made part of the pooling order that established the escrow account; (b) the operator's records of deposits attributable to those tracts for which funds are being requested; and (c) the records of the escrow account for the coalbed methane—gas drilling gas-drilling unit. The petition for disbursement shall be placed on the first available Board docket. Funds shall be disbursed within 30 days after the Board decision and receipt by the Department of all documentation required by the Board. The interests of any cotenants that have not been resolved by the agreement or by judicial decision shall remain in the escrow account.

6. Any person who does not make an election under the pooling order shall be deemed, subject to a final legal determination of ownership, to have leased his gas or oil interest to the coalbed methane gas well operator as the pooling order may provide.

Drafting note: Language is updated for clarity and technical changes are made.

§-45.1-361.22:1 45.2-xxx. Conflicting claims of ownership; arbitration.

A. The Board shall enter an order requiring that the matter of disputed ownership be submitted to arbitration, and notify the circuit court in the jurisdiction—wherein in which the majority of the subject tract is located, (i) upon written request from all claimants to the ownership of coalbed methane gas related to the subject tract under §-45.1-361.22_45.2-xxx; (ii) upon receipt of an affidavit executed by all such claimants affirming that there is no other known surface owner, gas or oil owner, coal owner, mineral owner, or operator of a gas storage field certificated by the State Corporation Commission having an interest underlying the subject tract; (iii) after a hearing noticed pursuant to subsection B of §-45.1-361.19 45.2-xxx; and (iv)

upon a determination by the Department whether sufficient funds are available to pay the estimated costs of the arbitration pursuant to subsection F. Within 30 days of receipt of the notice from the Board, the circuit court shall appoint an attorney from the list maintained by the Department pursuant to subsection C or, at the discretion of the court, such other attorney meeting the qualifications set forth in subsection C. Prior to his appointment as an arbitrator of a particular dispute, the attorney shall certify to the circuit court that he has not derived more than 10 percent of his income during any of the preceding three years from any (a) claimants asserting ownership or rights in the subject tract or—any (b) affiliated entities or immediate family members of such claimants. If the attorney cannot provide such certification, he shall notify the circuit court and he will be disqualified from serving as arbitrator for that particular dispute.

B. The Department shall send notice to all claimants if it determines that there are insufficient funds to pay the estimated costs of the arbitration pursuant to subsection F. The claimants may, by unanimous agreement, proceed with the arbitration process, notify the Board of such agreement, and bear the costs to the extent of the insufficiency. If the parties do not agree, the arbitration shall be delayed until such funds are available.

C. To be qualified as an arbitrator, a candidate_shall (i)-shall be an attorney licensed in the Commonwealth; (ii)-shall have at least 10 years of experience in real estate law, including substantial expertise in mineral title examination; and (iii)-shall disclose to the Board whether he has been engaged within the preceding three years by any person in-matters_a matter subject to the jurisdiction of the Board or the Department under this chapter. The Department shall solicit applications from attorneys meeting the qualifications set forth-above_in this subsection and maintain a list of attorneys qualifying as arbitrators for use by the circuit courts. At least once annually, the Department shall update its list. To maintain qualification, each attorney whose name appears on the list shall update annually his disclosures_as set forth in clause (iii).

D. The arbitrator shall determine a time and place for the arbitration hearing and cause written notification of such hearing to be served on each surface owner, gas or oil owner, coal

owner, mineral owner, or operator of a gas storage field certificated by the State Corporation Commission having an interest underlying the tract that is the subject of the hearing. Parties shall be served personally or by certified mail, return receipt requested, not less than 14 days before the hearing. Appearance at the hearing waives such party's right to challenge notice. Any party to the arbitration has the right to representation before the arbitrator pursuant to § 8.01-581.05. In accordance with § 8.01-581.06, the arbitrator may issue subpoenas for the attendance of witnesses and for the production of books, records, documents, and other evidence; administer oaths; and, upon application by a party to the arbitration, permit the taking of depositions for use as evidence. The arbitrator shall hear and determine the controversy upon the evidence and consistent with applicable law, notwithstanding the failure of a party to appear at the hearing.

E. The arbitrator shall issue his determination as to the ownership in the coalbed methane gas and entitlement to proceeds held in escrow within six months from the order of the Board requiring the matter be submitted to arbitration, unless a longer period is otherwise agreed to by all parties. Such determination shall be in writing and sent to the Board and to each party to whom notice is required to be given under subsection D.

- F. Upon the issuance of the arbitrator's determination of ownership and subject to the availability of funds, the fees and expenses of the arbitration, but not including fees or costs of counsel engaged by the respective claimants or any other costs of the claimants, shall be paid from the accrued interest on general escrow account funds.
- G. An arbitrator's determination, rendered pursuant to subsection E_7 shall be binding upon the parties and, upon request of any party to the arbitration, may be entered as the judgment of the circuit court responsible for appointing the arbitrator under subsection A.
- H. Upon application of any party to the arbitration, a determination rendered pursuant to subsection E may be confirmed, vacated, corrected, or appealed pursuant to the grounds set forth in Chapter 21 (§ 8.01-577 et seq.) of Title 8.01.

Drafting note: Technical changes are made and language is updated for modern usage.

§ 45.1 361.22:2 45.2-xxx. Release of funds held in escrow or suspense because of conflicting claims to coalbed methane gas.

A. For a coalbed methane gas well that was force-pooled prior to July 1, 2015, the coalbed methane gas well operator shall, on or before January 1, 2016, apply to the Board for the release of the funds in escrow and give written notice of such application to-all every conflicting claimants claimant identified in the pooling orders, or to the successors successor of such-claimants claimant where the successors are successor is known to the coalbed methane gas well operator or have has identified themselves himself to the coalbed methane gas well operator or the Board. Such notice shall be in accordance with the applicable provisions of § 45.1-361.19 45.2-xxx and, if any unknown persons person or unlocatable conflicting claimants are claimant is subject to escrow, such notice shall also be published in a newspaper of general circulation in the county or counties where the drilling unit is located once each week for four successive weeks. The application shall include a detailed accounting in accordance with subdivision 5 of §-45.1-361.22 45.2-xxx. The Board shall order payment of the principal and accrued interest, less escrow account fees, held in escrow, along with all future royalties attributable to the drilling unit, to each gas claimant identified in the pooling order unless, within 45 days of the coalbed methane gas well operator's notice of its application, the coal claimant provides the Board and the coalbed methane gas well operator with evidence of a proceeding or agreement. The Board, pursuant to its authority granted by § 45.1-361.15 45.2xxx, may extend the time for filing the application and delay the payment of funds for a gas title conflicts conflict, the existence of an unknown gas-claimant, the existence of an unlocatable gas claimants claimant, an unresolved gas heirship issues issue, or any other reasons reason beyond the reasonable control of the coalbed methane gas well operator and shall not order payment where if the gas claimant fails to provide the Board with information needed under applicable law or regulation to distribute the funds.

B. For a coalbed methane gas well force-pooled on or after July 1, 2015, the Board, in its pooling order, shall direct the coalbed methane gas well operator to pay royalties to the gas claimant unless the coal claimant provides the coalbed methane gas well operator and the Board with evidence of a proceeding or agreement not later than the time and place of the pooling hearing. The coalbed methane gas well operator shall provide written notice of the hearing to the every gas-claimants claimant and coal-claimants claimant in accordance with § 45.1-361.19 45.2-xxx. However, the Board, pursuant to its authority granted by §-45.1-361.15 45.2-xxx, shall not order the coalbed methane gas well operator to make payment to a gas claimant where if there are exists any gas title conflicts conflict, unknown gas claimant, unlocatable gas claimant, unresolved gas heirship issues issue, or other reasons reason beyond the reasonable control of the coalbed methane gas well operator or where if the gas claimant fails to provide the coalbed methane gas well operator with the information required under applicable law or regulation to pay royalties. In such cases If the Board so declines to order payment to be made to a gas claimant, the coalbed methane gas well operator shall provide each affected gas claimant and the Board with written notice of the same reason payment is not required to be made in accordance with the applicable provisions of §-45.1-361.19 45.2-xxx. Where If payment is not required to be made due to the gas claimant's failure to provide needed information under applicable law or regulation, the notice shall identify the information that is needed to enable the payment to be made.

C. For a coalbed methane gas well voluntarily pooled at any time, the coalbed methane gas well operator shall pay royalties, including past royalties held, to each gas claimant unless, within 45 days of the coalbed methane gas well operator's provision of written notice to the coal claimant that the operator will be paying royalties to the gas claimants, the coal claimant provides the coalbed methane gas well operator and each gas claimant with evidence of a proceeding or agreement. For units any unit voluntarily pooled before July 1, 2015, the coalbed methane gas well operator shall provide such written notice to the each gas claimants claimant and coal claimants claimant on or before January 1, 2016. For units any unit voluntarily pooled

on or after July 1, 2015, the coalbed methane gas well operator shall provide such written notice to the each gas claimants claimant and coal claimants claimant not later than 45 days after production commences. However, the coalbed methane gas well operator shall not be required to make payment to a gas claimant where if there are exists any gas title conflicts conflict, unknown gas claimants claimant, unlocatable gas claimants claimant, unresolved gas heirship issues issue, or other reasons reason beyond the reasonable control of the coalbed methane gas well operator or where if the gas claimant fails to provide the coalbed methane gas well operator with information to process or pay royalties. In such cases If the Board so declines to order payment to be made to a gas claimant, the coalbed methane gas well operator shall provide each affected gas claimant with written notice of the same reason payment is not required to be made in accordance with the applicable provisions of § 45.2-xxx. Where If payment is not required to be made due to a gas claimant's failure to provide needed information, the notice shall identify the information that is needed to enable the payment to be made.

D. Any pending judicial or arbitration proceeding shall be pursued by the coal claimant with diligence and shall not be voluntarily dismissed or nonsuited without the consent of the gas claimant. No default judgment shall be entered against a gas claimant in such proceeding. Royalties shall be paid as determined by the final order in the proceeding. A prevailing gas claimant shall be entitled to recover from that the nonprevailing coal claimant reasonable costs and attorney fees if such person gas claimant substantially prevails on the merits of the case and the coal claimant's position is not substantially justified.

E. A coalbed methane gas well operator paying funds to a gas claimant in accordance with this section shall have no liability to a coal claimant for the payments made by the coalbed methane gas well operator to a gas claimant.

F. This section shall not operate to extinguish any other right or cause of action or defenses defense thereto that may exist, including, but not limited to, claims any claim for an accounting or a claim under § 8.01-31. Nothing in this section shall create, confer, or impose a fiduciary duty.

Drafting note: Technical changes are made, including changes pursuant to § 1-227, which states that throughout the Code any word used in the singular includes the plural and vice versa. Language is updated for clarity, and the procedural provisions of subsections B and C are clarified and made parallel. In subsection F, the phrase "but not be limited to" is removed pursuant to § 1-218, which states that throughout the Code "'Includes' means includes, but not limited to."

§-45.1-361.23_45.2-xxx. Appeals of the Director's decisions; notices; hearings and orders.

A. With the exception of an aggrieved permit applicant, no person shall have standing to appeal a decision of the Director to the Board concerning a new permit application unless such person has previously filed an objection with the Director pursuant to the provisions of § 45.1 361.35 45.2-xxx.

B. When a person applies for a hearing to appeal a decision of the Director to the Board, the Board shall, at least twenty 20 days prior to the hearing, give notice by certified mail, return receipt requested, to the person making the appeal and, if different, to the gas or oil operator subject to the appeal.

C. Upon submittal of the petition for appeal of a decision of the Director to the Board, the Director shall forward to the Board (i) the permit application or order and associated documents, (ii) all required notices, and (iii) the written objections, proposals, and claims recorded during the informal fact finding fact-finding hearing.

D. In any appeal involving a permit of a new well—which that was objected to pursuant to the provisions of §-45.1-361.11, § 45.1-361.12, 45.2-xxx or 45.2-xxx or by a gas storage field operator who asserts that the proposed well work will adversely affect the operation of a State Corporation Commission certificated gas storage field certificated by the State Corporation Commission, the filing of a petition for appeal shall stay any permit until the case is decided by the Board or the stay is dissolved by a court of record. However, in an appeal by a gas storage field operator, such automatic stay shall not apply to any oil, gas, or coalbed methane—wells well

completed more than one hundred 100 feet above the cap rock above the storage stratum. In all any other appeals appeal, the Director may order the permit or other decision stayed for good cause shown until the case is decided by the Board or the stay is dissolved by a court of record. An appeal based on an alleged risk of danger to any person not engaged in the gas or oil and gas operations shall be prima facie proof of good cause for a stay.

E. The Board shall conduct all hearings under this section in accordance with the formal litigated issues hearing provisions of <u>Article 3 (§ 2.2-4020 et seq.)</u> of the Administrative Process Act (§ 2.2-4020 et seq.). However, <u>all persons any person</u> to whom notice is required to be given pursuant to subsection B-of this section shall have standing to be heard at the hearing. The Board shall render its decision on such appeals within thirty 30 days of the hearing's closing date and shall provide notification of its decision to all parties pursuant to the provisions of the Administrative Process Act (§ 2.2-4000 et seq.).

Drafting note: The word "oil," apparently omitted in error from subsection B, is inserted. Technical changes are made pursuant to § 1-227, which states that throughout the Code any word used in the singular includes the plural and vice versa. In subsection D, the term "oil and gas operations" is adjusted to conform to the defined term, "gas or oil operations." Technical changes are made and language is updated for modern usage.

§-45.1-361.24 45.2-xxx. Enforcement.

The provisions of this article shall be enforced by the Director pursuant to the provisions of Article 3 (§ 45.1-361.27 45.2-xxx et seq.) of this chapter. In addition, should if any person violate violates or threaten threatens to violate any provision of this article, regulation promulgated adopted thereunder, or order of the Board, the Board may maintain suit to restrain any such violation or threatened violation.

Drafting note: Changes are made pursuant to § 1-227, which states that throughout the Code any word used in the singular includes the plural and vice versa. The term "regulation promulgated" is changed to "regulation adopted" in keeping with recent title

revisions because "adopt" is more widely used and includes the promulgation process.

Technical changes are made and language is updated for modern usage.

§ 45.1-361.25 45.2-xxx. Standing when Director or Board fails to act.

Should If the Director or Board fail fails to take enforcement action within ten 10 days of the Board's receipt of a petition alleging that the petitioner is or will be adversely affected by a violation or threatened violation of any provision of this article, regulation adopted thereunder, or an order of the Board, the petitioner shall have standing to file a complaint in the appropriate circuit court. The Board, in addition to the persons who are person violating or threatening to violate any the provision of this article, regulation adopted thereunder, or order of the Board, shall be made a party to any such action.

Drafting note: A change is made pursuant to § 1-227, which states that throughout the Code any word used in the singular includes the plural and vice versa. Technical changes are made and language is updated for modern usage.

§-45.1 361.26 45.2-xxx. Recording of orders.

The Inspector shall cause a true copy of any order entered by the Board—which_that establishes a drilling unit or pools any interests to be recorded in the office of the clerk of the circuit court of each—jurisdiction_locality wherein any portion of the relevant drilling unit is located. Such—orders_order shall be recorded in the record book in which gas or oil leases are normally recorded. The sole charge for recordation shall be a tax equal to ten dollars_\$10 plus one dollar_\$1 per page of the order. The recordation from the time noted thereon by the clerk shall be notice of the order to all persons.

Drafting note: A change is made pursuant to § 1-227, which states that throughout the Code any word used in the singular includes the plural and vice versa. Technical changes are made and language is updated for modern usage.

Article 3.

Regulation of Gas and Oil Development and Production.

1017	Drafting note: Existing Article 3, relating to regulation of gas and oil development
1018	and production, is retained.
1019	§-45.1-361.27 45.2-xxx. Duties, responsibilities, and authority of the Director.
1020	A. The Director shall promulgate adopt and enforce rules, regulations and orders
1021	necessary to ensure the safe and efficient development and production of gas and oil resources
1022	located in the Commonwealth. Such-rules, regulations and orders shall be designed to:
1023	1. Prevent pollution of state waters and require compliance with the Water Quality
1024	Standards water quality standards adopted by the State Water Control Board;
1025	2. Protect against off site offsite disturbances from gas, oil, or geophysical operations;
1026	3. Ensure the restoration of all sites disturbed by gas, oil, or geophysical operations;
1027	4. Prevent the escape of the Commonwealth's gas and oil resources;
1028	5. Provide for safety in coal and mineral mining and coalbed methane well and related
1029	facility operations;
1030	6. Control wastes from gas, oil, or geophysical operations;
1031	7. Provide for the accurate measurement of gas and oil production and delivery to the
1032	first point of sale; and
1033	8. Protect the public safety and general welfare.
1034	B. In promulgating rules and adopting regulations, and when issuing orders for the
1035	enforcement of the provisions of this article, the Director shall consider the following factors:
1036	1. The protection of the citizens and environment of the Commonwealth from the public
1037	safety and environmental risks associated with the development and production of gas or oil;
1038	2. The means of ensuring the safe recovery of coal and other minerals without
1039	substantially affecting the right of coal, minerals, gas, oil, or geophysical operators to explore
1040	for and produce coal, minerals, gas, or oil; and
1041	3. The protection of safety and health on permitted sites for coalbed methane wells and
1042	related facilities.

C. In promulgating rules, adopting regulations and orders, the Director shall be is authorized to set and enforce standards governing the following: gas or oil ground-disturbing geophysical exploration; the development, drilling, casing, equipping, operating, and plugging of gas or oil production, storage, enhanced recovery, or disposal wells; the development, operation, and restoration of site disturbances for wells, gathering pipelines, and associated facilities; and gathering pipeline safety.

- D. Whenever the Director determines that an emergency exists, he shall issue an emergency order without advance notice or hearing. Such orders order shall have the same validity as orders an order issued with advance notice and hearing, but shall remain in force no longer than thirty 30 days from their its effective date. After issuing an emergency order, the Director shall promptly notify the public of the order by publication and hold a public hearing for the purposes of modifying, repealing, or making permanent the emergency order. Emergency orders An emergency order shall prevail as against a general regulations regulation or orders order when in conflict therewith with it. Emergency orders shall apply to gas, oil, or geophysical operations and to particular fields, geographical areas, subject areas, subject matter matters, or situations.
 - E. The Director-shall also-have has the authority to:
 - 1. Issue, condition, and revoke permits;
- 2. Issue notices of violation and orders upon violations of any provision of this chapter or regulation adopted thereunder;
- 3. Issue closure orders in cases of imminent danger to persons or damage to the environment or upon a history of violations;
 - 4. Require or forfeit bonds or other financial securities;
- 5. Prescribe the nature of and form for the presentation of any information—and_or documentation required by any provision of this article or regulation adopted thereunder;

- 6. Maintain suit in the county or city or county where a violation has occurred or is threatened, or wherever a person who has violated or threatens to violate any provision of this chapter may be is found, in order to restrain the actual or threatened violation;
 - 7. At reasonable times and under reasonable circumstances, enter upon any property and take such action as is necessary to administer and enforce the provisions of this chapter; and
 - 8. Inspect and review all properties and records thereof as are necessary to administer and enforce the provisions of this chapter.
 - F. The Director shall have no jurisdiction to hear objections with respect to any matter subject to the jurisdiction of the Board as set out in Article 2 (§ 45.2-xxx et seq.). Such objections shall be referred to the Board in a manner prescribed by the Director.

Drafting note: The term "promulgate regulations" is changed to "adopt regulations" in keeping with recent title revisions because "adopt" is more widely used and includes the promulgation process. Technical changes are made pursuant to § 1-227, which states that throughout the Code any word used in the singular includes the plural and vice versa. Other technical changes are made and language is updated for modern usage. Subsection G of existing § 45.1-361.35 is moved to this section as proposed subsection F.

§ 45.1-361.28 45.2-xxx. Powers, duties, and responsibilities of the Inspector.

A. The Inspector shall administer the laws and regulations and shall have access to all records and properties necessary for this purpose. He shall perform all duties delegated by the Director pursuant to §-45.1-161.5-45.2-xxx and maintain permanent records of the following:

- 1. Each application for a gas, oil, or geophysical operation and each permitted gas, oil, or geophysical operation;
 - 2. Meetings, actions, and orders of the Board;
- 3. Petitions Each petition for mining coal within 200 feet of or through a well;
 - 4. Requests Each request for special plugging by a coal owner or coal operator; and
- 5. All other records prepared pursuant to this chapter.

B. The Inspector shall serve as the principal executive of the staff of the Board.

C. The Inspector may take charge of well or corehole, operations or pipeline emergency operations whenever a well or corehole blowout, release of hydrogen sulfide or other gases, or other serious accident occurs.

Drafting note: Technical changes are made pursuant to § 1-227, which states that throughout the Code any word used in the singular includes the plural and vice versa. Language is updated for clarity.

§ 45.1-361.29 45.2-xxx. Permit required; gas, oil, or geophysical operations; coalbed methane gas wells; environmental assessment.

A. No person shall commence any ground disturbing ground-disturbing activity for a well, gathering pipeline, geophysical exploration, or associated activity, facilities facility, or structures structure without first having obtained from the Director a permit to conduct such activity. Every permit application or permit modification application filed with the Director shall be verified by the permit applicant and shall contain all data, maps, plats, plans, and other information as required by regulation or the Director.

B. For <u>permits each permit</u> issued on <u>or after</u> July 1, 1996, <u>or thereafter</u>, <u>a</u> new <u>permits</u> permit issued by the Director shall be issued only for the following activities: geophysical operations, drilling, casing, equipping, stimulating, producing, reworking <u>an</u> initially productive <u>zones and zone</u>, plugging a well, or gathering pipeline construction and operation. <u>Applications An application</u> for <u>a</u> new <u>permits permit</u> to conduct geophysical operations shall be accompanied by an application fee of \$130. <u>Applications An application</u> for <u>all other a</u> new <u>permits permit for any other activity</u> shall be accompanied by an application fee of \$260 \$600.

C. For permits a permit issued prior to July 1, 1996, prior to commencing any reworking, deepening, or plugging of the well, or other activity not previously approved on the permitted site, a permittee shall first obtain a permit modification from the Director. All applications Each application for a permit modifications modification shall be accompanied by a permit modification fee of \$130 \$300. For permits a permit issued on or after July 1, 1996, or

thereafter, prior to commencing any new zone-completions completion a permittee shall first obtain a permit modification from the Director.

D. All permits Every permit and all operations provided for under this section shall conform to the rules, regulations and orders of the Director and the Board. When permit terms or conditions required or provided for under Article 3 (§ 45.1-361.27 et seq.) of this chapter article are in conflict with any provision of a conservation order issued pursuant to the provisions of Article 2 (§ 45.1-361.13 45.2-xxx et seq.) of this chapter, the terms or conditions of the permit shall control. In this event, the operator shall return to the Board for reconsideration of a conservation order in light of the conflicting permit. Every permittee shall be responsible for all operations, activity activities, or disturbances associated with the permitted site.

E. No permit or permit modification shall be issued by the Director until he has received from the applicant a written certification that (i) all notice requirements of this article have been complied with, together with proof thereof, and (ii) the applicant has the right to conduct the operations as set forth in the application and operations plan.

F. A permit shall be required to drill any coalbed methane gas well or to convert any methane drainage borehole into a coalbed methane gas well. In addition to the other requirements of this section, every permit application for a coalbed methane gas well shall include:

- 1. The method that the coalbed methane gas well operator will use to stimulate the well.
- 2. a. A signed consent from the coal operator of each coal seam—which_that is located within (i) 750 horizontal feet of the proposed well location—(i) which that the applicant proposes to stimulate or (ii) which is within 100 vertical feet above or below a coal bearing coal-bearing stratum—which that the applicant proposes to stimulate.

b. The consent required by this <u>section</u> subsection may be (i) contained in a lease or other such agreement; (ii) contained in an instrument of title; or (iii) in any case where a coal operator cannot be located or identified and the operator has complied with §-45.1-361.19 45.2-

xxx, provided by a pooling order entered pursuant to § 45.1-361.21 45.2-xxx or 45.1-361.22 and provided 45.2-xxx if such order contains a finding that the operator has exercised due diligence in attempting to identify and locate the coal operator, contained in such order. The consent required by this section subsection shall be deemed to be granted for any tract where title to the coal is held by multiple owners if the applicant has obtained consent to stimulate from the cotenants holding a majority interest in the tract and none of the coal co-tenants has leased the tract for coal development. The requirement of signed consent contained in this section subsection shall in no way be considered to impair, abridge, or affect any contractual rights or objections arising out of a coalbed methane gas contract or coalbed methane gas lease entered into prior to January 1, 1990, between the applicant and any coal operator, and or any extensions extension or renewals renewal thereto, and the existence of such lease or contractual arrangement and any extensions extension or renewals renewal thereto shall constitute a waiver of the requirement for the applicant to file an additional signed consent.

- 3. The unit map, if any, approved by the Board.
- G. No permit required by this chapter for-activities an activity to be conducted within an area of Tidewater Virginia where drilling is authorized under subsection B of § 62.1-195.1 shall be granted until the environmental impact assessment required by § 62.1-195.1 has been conducted and the assessment has been reviewed by the Department.
- H. The applicant for a permit for a gathering pipeline, oil or gas well, or coal bed methane well shall identify in the permit application any cemetery, as identified on a <u>U.S.G.S.</u>

 <u>United States Geological Survey</u> topographic map or located by routine field review, within 100 feet of the permitted activity.
- I. The operator of any coalbed methane well drilled within 250 feet of a cemetery shall comply with a written request of any person owning an interest in a private cemetery or the authorized agent of a public cemetery that the operator of such well suspend operations for a period from two hours before to two hours after any burial service that takes place on the surface area of such cemetery. However, if the well operator or a mine operator determines that

1180	throughout the Code any word used in the singular includes the plural and vice versa.
1179	Drafting note: Technical changes are made pursuant to § 1-227, which states that
1178	operation of the well shall continue.
1177	mining operations, the operator shall be under no obligation to comply with the request, and
1176	suspension of such operations will have an adverse effect on the safety of the well operations or

throughout the Code any word used in the singular includes the plural and vice versa. Clause designations in subdivision F 2 a are revised to correct an apparent organizational error. The first sentence of subdivision F 2 b is rewritten to avoid using conflicting meanings of the word "provided," and language is updated for clarity and modern usage.

§ 45.1-361.30 45.2-xxx. Notice of permit applications and permit modification applications required; content.

A. Within one day of the day on which the application for a permit for a gas or oil operation is filed, the applicant shall provide notice of the application to the following persons:

- 1. All Every surface owners owner, coal owners owner, and mineral owners owner on the tract to be drilled;
- 2. <u>Coal operators Every coal operator</u> who <u>have has</u> registered <u>an</u> operation <u>plans plan</u> with the Department for activities located on the tract to be drilled;
- 3. All Every surface owners owner on tracts a tract where the surface is to be disturbed;
 - 4. All Every gas, oil, or royalty—owners owner (i) within one-half of the distance specified in §-45.1-361.17_45.2-xxx for that type of well, or—within one-half of the distance to the nearest well completed in the same pool, whichever is less, or (ii) within the boundaries of a drilling unit established pursuant to the provisions of this chapter;
 - 5. All Every coal-operators operator who have has applied for or obtained a mining or prospecting permit with respect to tracts a tract located within 500 feet of the proposed well location or, in the case of a proposed coalbed methane gas well location, within 750 feet thereof;
 - 6.—All Every coal—owners owner or mineral—owners owner on-tracts a tract located within 500 feet of the proposed well location or, in the case of a proposed coalbed methane gas well location, within 750 feet thereof; and

7. All operators Every operator of a gas storage fields field certificated by the State

1204 Corporation Commission as a public utility facility whose certificated area includes the well

1205 location, or whose certificated boundary is within 1,250 feet of the proposed well location.

B. Within one day of the day on which the application for a permit modification for a gas or oil operation is filed, the applicant requesting such permit modification shall provide notice of the application to all persons listed in subsection A of this section who may be directly affected by the proposed activity.

C. Within one day of the day on which the application for a permit for geophysical operations is submitted, the applicant shall provide notice to those persons listed in subdivisions A 1, 2, and 3-of subsection A of this section.

D. All notices Each notice required to be given pursuant to subsections subsection A, B, and or C of this section shall contain a statement of the time within which objections may be made and the name and address of the person to whom objections shall be forwarded. Only those persons a person entitled to notice under subsections subsection A, B, and or C of this section shall have standing to object to the issuance of the proposed permit or permit modification for a gas, oil, or geophysical operation as the use may be. Upon receipt of notice, any person may waive in writing the time and right to object.

E. Within seven days of the day on which the application for a permit is filed, the applicant shall provide notice to (i) the local governing body or chief executive officer of the locality where the well is proposed to be located and (ii) the general public, through publication of a notice in at least one newspaper of general circulation—that is widely circulated in the locality where the well is proposed to be located.

F. An applicant shall make a reasonable effort to provide the notices required under subsections A, B, and C. If an applicant is unable to identify or locate any person to whom notice is required, then the notice provided in clause (ii) of subsection E shall be considered sufficient notice to such persons and the date of notification shall be the date of publication.

Drafting note: Technical changes are made pursuant to § 1-227, which states that throughout the Code any word used in the singular includes the plural and vice versa. Clause designations are added to subdivision A 4 for clarity. Language is updated for modern usage and the redundant phrase "that is widely circulated" is deleted. Technical changes are made.

§ 45.1-361.31 45.2-xxx. Bonding and financial security required.

A. To ensure compliance with all laws and regulations pertaining to permitted activities and the furnishing of reports and other information required by the Board or Director, all each permit applicants applicant shall give bond with surety acceptable to the Director and payable to the Commonwealth. At the election of the permit applicant, a cash bond may be given. The amount of the bond required shall be sufficient to cover the costs of properly plugging the well and restoring the site, but in no case shall the amount of the bond be less than \$10,000 per well plus \$2,000 per acre of disturbed land, calculated to the nearest tenth of an acre. Bonds Each bond shall remain in force until released by the Director. The Director may require additional bond or financial security for any well proposed to be drilled in Tidewater Virginia.

- B. Upon receipt of an application for <u>multiple</u> permits for gas or oil operations and at the request of the permit applicant, the Director may, in lieu of requiring a separate bond for each permit, require a blanket bond. The amount of the blanket bond shall be as follows:
- 1. For one to 10 wells, \$25,000.
- 2. For 11 to 50 wells, \$50,000.
- 3. For 51 to 200 wells, \$100,000.
- 4. For more than 200 wells, \$200,000.

For purposes of calculating blanket bond amounts, from one-tenth of an acre to five acres of disturbed land for a separately permitted gathering pipeline shall be equivalent to one well. The Director shall <u>promulgate adopt</u> regulations for the release of acreage used to calculate blanket bond amounts for separately permitted gathering pipelines in cases where sites have been stabilized.

C. Any gas or oil operator who elects to post a blanket bond shall pay into the Gas and Oil Plugging and Restoration Fund those fees and assessments required under the provisions of §45.1-361.32 45.2-xxx.

Drafting note: The term "promulgate regulations" is changed to "adopt regulations" in keeping with recent title revisions because "adopt" is more widely used and includes the promulgation process. Technical changes are made pursuant to § 1-227, which states that throughout the Code any word used in the singular includes the plural and vice versa. The word "multiple" is added to the first sentence of subsection B for clarity.

§ 45.1-361.32 45.2-xxx. Gas and Oil Plugging and Restoration Fund.

A. The There is hereby created in the state treasury a special nonreverting fund to be known as the Gas and Oil Plugging and Restoration Fund is hereby established as a non lapsing revolving fund to be administered by the Department pursuant to the provisions of, referred to in this section. The Fund shall consist of all as "the Fund." All payments made into the Fund by gas or oil operators, all collections of debt for expenditures made from the Fund, and all interest payments made into the Fund pursuant to the provisions of this section shall be paid into the state treasury and credited to the Fund. Interest earned on moneys in the Fund shall remain in the Fund and be credited to the Fund. The Fund shall be established on the books of the Comptroller and any-funds moneys remaining in such the Fund, including interest thereon, at the end of the biennium each fiscal year shall not revert to the general fund but shall remain in the Fund. Expenditures and disbursements from the Fund shall be made by the State Treasurer on warrants issued by the Comptroller upon written request signed by the Director or his designee.

B. Pursuant to § 45.1 361.31, each gas or oil operator who has posted a blanket bond shall pay into the Fund a fee of fifty dollars per permit held, by July 31, 1990. Each permittee operating under a blanket bond pursuant to § 45.2-xxx [§ 45.1-361.31] shall annually pay to the Fund an amount equal to fifty dollars \$50 multiplied by the number of permits he then holds,

such payment to be submitted with the annual report required under § 45.1 361.38 45.2-xxx, until the payments and interest accruing to the Fund totals \$100,000. Whenever the Director determines that the Fund's balance has fallen below \$25,000 due to uncollectible debts, the Director shall assess a fee of \$50 per permit per year on each permittee with a blanket bond until the Fund's balance once again reaches \$100,000.

C. <u>Disbursements from Moneys in</u> the Fund shall be used <u>only to supplement solely for</u> the purpose of supplementing bond proceeds in order to pay for the full cost of plugging and restoration in the event of a blanket bond forfeiture.

D. The amount by which the cost of plugging and restoration exceeds the amount of the gas or oil operator's forfeited bond shall constitute a debt of the operator to the Commonwealth. The Director is authorized to collect such debts together with the costs of collection through appropriate legal action. All moneys collected pursuant to this subsection, less the costs of collection, shall be deposited in the Fund.

E. Once the initial balance of the Fund exceeds \$100,000, and thereafter whenever the Director determines that the Fund's balance has fallen below \$25,000 due to uncollectible debts, the Director shall assess a fee of fifty dollars per permit per year on all permittees with blanket bonds until the Fund's balance once again reaches \$100,000.

F. No permit shall be issued to a gas or oil operator until he has fully reimbursed the Commonwealth for any debt incurred pursuant to the provisions of subsection D-of this section.

<u>F.</u> In the event of a discontinuance of the Fund, any amounts remaining in the Fund shall be returned to <u>all_each</u> gas or oil <u>operators operator</u> with a blanket <u>bonds bond</u> in proportion to the number of permits under the blanket <u>bonds bond</u> of each operator.

Drafting note: The nonreverting fund language for the Gas and Oil Plugging and Restoration Fund is updated to reflect current language requested by the Department of the Treasury for nonreverting funds in the Code. Organizational changes are made: The final sentence of subsection A, regarding discontinuance of the Fund, is moved to end of the section and designated as subsection F; the first sentence of subsection B is deleted as

obsolete; and subsection E is deleted, with relevant language moved to the end of subsection B. Technical changes are made, including changes pursuant to § 1-227, which states that throughout the Code any word used in the singular includes the plural and vice versa.

§-45.1-361.33 45.2-xxx. Expiration of permits.

All permits Each permit issued pursuant to this chapter shall expire 24 months from their its date of issuance unless the permitted activity has commenced within that time period. An operator may renew the an existing permit for an additional 24 months by submitting a written request containing the coal operator's approval and remitting a \$325 renewal fee no later than the expiration date.

Drafting note: Technical changes are made pursuant to § 1-227, which states that throughout the Code any word used in the singular includes the plural and vice versa.

§ 45.1 361.34 45.2-xxx. Abandonment or cessation of well or corehole operation; plugging required.

Upon the abandonment or cessation of the operation of any well or corehole, the gas, oil, or geophysical operator shall immediately fill and plug the well or corehole in the manner required by regulations in force at the time of abandonment or the operation's cessation.

Drafting note: No change.

§-45.1-361.35 45.2-xxx. Objections to permits; hearing.

A. Objections to a new permit or permit modification permits may be filed with the Director by those any person having standing as set out in § 45.1 361.30 45.2-xxx. Such objections shall be filed within fifteen 15 days of the objecting party's receipt of the notice required by § 45.1 361.30 45.2-xxx. Persons Any person objecting to a permit must state the reasons for their his objections.

B. The only objections to permits or permit modifications that may be raised by a surface owners owner are:

1361

<u>45.2-xxx</u>.

1336	1. The operations plan for soil erosion and sediment control is not adequate or not
1337	effective;
1338	2. Measures in addition to the requirement for a well's water-protection string are
1339	necessary to protect fresh water bearing freshwater-bearing strata;
1340	3. The permitted work will constitute a hazard to the safety of any person;
1341	4. Location of the coalbed methane well or coalbed methane well pipeline will
1342	unreasonably infringe on the surface owner's use of the surface, provided that so long as a
1343	reasonable alternative site is available within the unit, and granting the objection will not
1344	materially impair any right contained in an agreement, valid at the time of the objection,
1345	between the surface owner and the operator or their predecessors or successors in interest; and
1346	5. If the surface owner is an interstate park commission, the location of the well or
1347	pipeline will unreasonably infringe on the surface owner's use of the surface, provided that so
1348	long as a reasonable alternative site is available within the unit, and that granting the objection
1349	will not materially impair any right contained in an agreement, valid at the time of the objection,
1350	between the surface owner and the operator or their predecessors or successors in interest.
1351	C. The only objections to permits or permit modifications that may be raised by a royalty
1352	owners owner are whether that the proposed well work:
1353	1. Directly impinges upon the royalty owner's gas and oil interest; or
1354	2. Threatens to violate the objecting royalty owner's property or statutory rights aside
1355	from his contractual rights; and
1356	3. Would not adequately prevent the escape of the Commonwealth's gas and oil
1357	resources or provide for the accurate measurement of gas and oil production and delivery to the
1358	first point to sale.
1359	D. Objections to permits or permit modifications may be raised by a coal owners owner

or-operators operator pursuant to the provisions of §§-45.1-361.11_45.2-xxx and-45.1-361.12

E. The only objections to permits or permit modifications that may be raised by a mineral—owners owner are those that could be raised by a coal owner under § 45.1-361.11 provided 45.2-xxx so long as the mineral owner makes the objection and affirmatively proves that it does in fact apply with equal force to the mineral in question.

F. The only objections to permits or permit modifications that may be raised by a gas storage field operators operator are those in which the gas storage operator affirmatively proves that the proposed well work will adversely affect the operation of his State Corporation Commission certificated gas storage field certificated by the State Corporation Commission; however, nothing in this subsection shall be construed to preclude the owner of nonstorage strata from the drilling of wells a well for the purpose of producing oil or gas from any stratum above or below the storage stratum.

G. The Director shall have no jurisdiction to hear objections with respect to any matter subject to the jurisdiction of the Board as set out in Article 2 (§ 45.1-361.13 et seq.) of this chapter. Such objections shall be referred to the Board in a manner prescribed by the Director.

H. The Director shall fix a time and place for an informal fact-finding hearing concerning such objections an objection filed pursuant to this section. The hearing shall not be scheduled for not less than twenty 20 nor more than thirty 30 days after the objection is filed. The Director shall prepare a notice of the hearing, stating all objections and by whom each is made, and send a copy of such notice by certified mail, return receipt requested, at least ten 10 days prior to the hearing date, to the permit applicant and to every person with standing to object as prescribed by § 45.1 361.30 45.2-xxx.

I.-H. At the hearing, should if the parties fail to come to an agreement, the Director shall proceed to decide the objection pursuant to those provisions of the Administrative Process Act (§ 2.2-4000 et seq.) relating to informal fact-finding procedures.

Drafting note: Language is updated for modern usage. Technical changes are made, including changes pursuant to § 1-227, which states that throughout the Code any word used in the singular includes the plural and vice versa. Subsection G, which

addresses the jurisdiction of the Director, is moved to a more appropriate location in existing § 45.1-361.27.

§ 45.1-361.36 45.2-xxx. Appeals of Director's decisions to the Board.

A. Any person with standing under the provisions of § 45.1 361.30 45.2-xxx who is aggrieved by a decision of the Director may appeal to the Board, subject to the limitations imposed by subsection B of this section, by petition to the Board filed within ten 10 days following the appealed decision.

B. No petition for appeal may raise any matter other than <u>matters</u> a matter that was raised by the Director or <u>which</u> that the petitioner put in issue either by application or by <u>objections, proposals</u> an <u>objection, proposal,</u> or <u>claims claim</u> made and specified in writing at the informal fact-finding hearing held under § <u>45.1 361.35</u> <u>45.2-xxx</u> leading to the appealed decision.

Drafting note: Language is updated for modern usage. Technical changes are made, including changes pursuant to § 1-227, which states that throughout the Code any word used in the singular includes the plural and vice versa.

§-45.1-361.37 45.2-xxx. Persons required to register; designated agents.

A. Any person who owns a well, drills a well, completes well work, operates any well or gathering pipeline, conducts—ground-disturbing ground-disturbing geophysical explorations, or who transports gas or oil up to and including the first point of sale shall register with the Director and shall provide his name and address and the name, address, and official title of the person in charge of his operations in the Commonwealth.

B. Any person registering under subsection A of this section shall designate the name and address of an agent who shall be the attorney-in-fact of the registrant for the purposes hereinafter set forth in this section. The designated agent shall be a resident of the Commonwealth. Notices, orders, other communications, and all processes issued pursuant to this chapter may be served upon or otherwise delivered to the designated agent as and for the

operator. Any designation of an agent shall remain in force until the Director is notified in writing of a designation termination and the designation of a new agent.

Drafting note: Language is updated for clarity and technical changes are made.

§-45.1-361.38_45.2-xxx. Report of permitted activities and production required; contents.

A. Each holder of a permit for a gas or oil wells well or gathering pipelines pipeline shall file monthly and annual reports of his activities as prescribed by the Director. These Such reports shall be for the purpose of obtaining information regarding the production and sale of gas and oil resources, as well as information concerning the ownership and control of permitted activities. Filing of these such reports by a permittee shall be a condition of such permit. Every annual report filed by a permittee shall contain a certification that such permittee has paid all severance taxes levied under the provisions of §§ 58.1-3712, 58.1-3713, and 58.1-3741.

B. At the same time that a permittee files the monthly and annual reports as required by subsection A, the permittee shall send copies of the reports by mail to the commissioner of the revenue of the political subdivision where the permitted wells are located.

Drafting note: Technical changes are made pursuant to § 1-227, which states that throughout the Code any word used in the singular includes the plural and vice versa. Language is updated for modern usage.

§-45.1-361.39 45.2-xxx. Developing a gas or oil well as a water well.

Should—If any well drilled for gas or oil does not produce commercial or paying quantities of either resource, the well may be developed as a water well upon the request of the surface owner of the property on which the well is located. Any development of such a water well shall occur only after notice is given to the Director and his approval has been received. Such development of a water well shall be performed in accordance with applicable state and local requirements. Unless the gas or oil operator and surface owner otherwise agree, the surface owner shall pay the gas or oil operator a reasonable sum for all casing and tubing set and left in the well—which that would have otherwise been removed upon plugging of the well.

Drafting note: Language is updated for modern usage.

§ 45.1-361.40 45.2-xxx. Orphaned Well Fund; orphaned wells.

A.—The There is hereby created in the state treasury a special nonreverting fund to be known as the Orphaned Well Fund, referred to in this section as "the—Fund," is hereby established in the state treasury as a special non lapsing revolving fund to be administered by the Department pursuant to the provisions of this section. The Fund shall consist of such Fund."

All moneys—as are appropriated to it by the General Assembly and such any surcharges—as are collected pursuant to subsection D—shall be paid into the state treasury and credited to the Fund. Interest earned on moneys in the Fund shall remain in the Fund and be credited to it. The Orphaned Well Fund shall be established on the books of the Comptroller—and—any funds. Any moneys remaining in the Fund, including interest thereon, at the end of each fiscal year shall not revert to the general fund but shall remain in the Fund. In the event of a discontinuance of the Fund, any amounts remaining in it shall be placed in the Gas and Oil Plugging Restoration Fund. Moneys from the Fund shall be used—only solely for purposes of restoration and plugging of orphaned wells. Expenditures and disbursements from the Fund shall be made by the State Treasurer on warrants issued by the Comptroller upon written request signed by the Director or his designee.

B. The Director shall conduct a survey to determine the condition and location of orphaned wells in the Commonwealth. He shall establish priorities for the plugging and restoration of the identified orphaned wells. The plugging and restoration of orphan well sites that pose an imminent danger to public safety shall have the highest priority.

C. In performing his duties under this section, the Director shall make every reasonable effort to identify and obtain the permission of a surface owner prior to entering onto the surface owner's land. In all cases, the Director shall as soon as practicable cause to be published in a newspaper of general circulation in the county or city wherein an orphaned well is located a notice of the proposed plugging and restoration work to be conducted on the property.

D. Each operator who applies for a new permit for any activity other than geophysical operations shall pay a \$200 surcharge per permit into the Fund. Such surcharge shall continue

until the Director determines all orphaned wells in the Commonwealth are properly plugged and their sites are properly stabilized.

E. In the event of a discontinuance of the Fund, any amounts remaining in it shall be placed in the Gas and Oil Plugging Restoration Fund created pursuant to § 45.2-xxx [§ 45.1-361.32].

Drafting note: The nonreverting fund language for the Gas and Oil Plugging and Restoration Fund is updated to reflect current language requested by the Department of the Treasury for nonreverting funds in the Code. A sentence in subsection A, regarding discontinuance of the Fund, is moved to end of the section and designated as subsection E. Technical changes are made, including changes pursuant to § 1-227, which states that throughout the Code any word used in the singular includes the plural and vice versa. A cross-reference to § 45.2-xxx [existing § 45.1-361.32], which creates the Gas and Oil Plugging and Restoration Fund, is added.

§ 45.1-361.41 45.2-xxx. Interference by injection wells with ground water groundwater supply.

A. For purposes of this section:

"Beneficial use" means the same as that term is defined in § 62.1-255.

"Groundwater" means the same as that term is defined in § 62.1-255.

B. Any person who owns or operates an injection well in a manner that proximately causes the contamination or diminution of ground water groundwater used for a beneficial use by any person who resides within the lesser of (i) the area of review required by the United States U.S. Environmental Protection Agency for the permitting of that such injection well, or (ii) a one half mile one-half-mile radius of the well shall provide the person with a replacement water supply. A replacement water supply shall provide the person or persons with water of equivalent quality and quantity as was provided by ground water groundwater prior to the contamination or diminution of the water supply resulting from the operation of the injection well. A replacement water supply shall include the provision of necessary storage and service

facilities. "Ground water" shall have the same meaning ascribed to it in § 62.1-255. "Beneficial use" shall have the same meaning ascribed to it in § 62.1-10.

B. C. This section shall apply to any injection well, whether operating under a permit from the Director of the Department of Mines, Minerals and Energy issued prior to, on or after July 1, 1992.

Drafting note: Definitions applicable to the section are moved to a new first subsection and the citation for the definition of "beneficial use" is corrected. Technical changes are made, including changes pursuant to § 1-227, which states that throughout the Code any word used in the singular includes the plural and vice versa. The reference to a permit issued prior to, on, or after July 1, 1992, is removed as meaningless. Language is updated for modern usage.

§ 45.1-361.42 45.2-xxx. Safety in coalbed methane gas, oil, and geophysical operations.

The Director shall inspect permitted coalbed methane well and related facility operations to ensure the safety of persons on permitted sites. When the an inspection reveals any hazardous condition that creates an imminent danger, the Director shall issue a closure order pursuant to § 45.1 361.27 45.2-xxx requiring the area to be cleared or the equipment removed from use, except for (i) work necessary to continue to vent methane from an active underground mine if it such work can be done safely and (ii) any work necessary to correct or eliminate the imminent danger. The Director shall lift the closure order when he finds that the imminent danger has been corrected or eliminated. When the an inspection reveals any other condition that creates a risk to the safety or health of any person on the permitted site, the Director shall notify the Department of Labor and Industry for actions under Title 40.1, as applicable.

Drafting note: Language is updated for clarity.

1519 <u>Article 4.</u>

Drilling for Gas or Oil in the Chesapeake Bay or Tidewater Virginia.

Drafting note: Existing §§ 62.1-195.1 and 62.1-195.3, relating to drilling in the Chesapeake Bay and Tidewater Virginia, are relocated to proposed Article 4.

1549

1523 §-62.1-195.1 45.2-xxx. Chesapeake Bay; drilling for-oil or gas or oil prohibited. 1524 A. Notwithstanding any other law, a no person shall not drill for oil or gas or oil in the 1525 waters of the Chesapeake Bay or any of its tributaries. The provisions of this subsection shall be 1526 enforced consistent with the requirements of Chapter xx [22.1] (§ 45.2-xxx [§ 45.1-361.1] et 1527 seq.). 1528 Drafting note: Existing § 62.1-195.1 is divided into two proposed sections to 1529 separate two distinct topics. The first sentence of the existing section, prohibiting drilling 1530 in the Chesapeake Bay, is retained in the proposed section. The terms in the phrase "oil or 1531 gas" are reversed for consistency with the rest of the chapter. The prohibitory language in 1532 the first sentence is recast in affirmative form consistent with current drafting practice. 1533 The second sentence of the proposed section contains the enforcement language from 1534 existing subsection G that is applicable to the proposed section. 1535 § 45.2-xxx. Tidewater Virginia; drilling for gas or oil prohibited in certain areas. 1536 A. In Tidewater Virginia, as defined in § 62.1-44.15:68, a no person shall not drill for oil 1537 or gas in, whichever is the greater distance or oil (i) within 500 feet of the shoreline of the 1538 waters of the Chesapeake Bay or any of its tributaries, as measured landward of the shoreline; 1539 or (ii) if it is farther than 500 feet from such shoreline, in any 1540 1. Those Chesapeake Bay Preservation—Areas Area, as defined in § 62.1-44.15:68, which 1541 that a local government designates as "Resource a Resource Protection Areas" Area and 1542 incorporates into its local comprehensive plan. "Resource Resource Protection Areas" Areas 1543 shall be defined according to the criteria developed by the State Water Control Board pursuant 1544 to § 62.1-44.15:72. 1545 ; or 1546 2. Five hundred feet from the shoreline of the waters of the Chesapeake Bay or any of its 1547 tributaries.

B. In the event that If any person desires to drill for oil or gas or oil in any area of Tidewater Virginia where drilling is not prohibited by the provisions of subsection A, he shall

1550	submit an environmental impact assessment to the Department of Mines, Minerals and Energy
1551	as part of his application for a permit to drill an environmental impact assessment. The Such
1552	environmental impact assessment shall include:
1553	1. The probabilities and consequences of accidental discharge of oil or gas or oil into the
1554	environment during drilling, production, and transportation on:
1555	a. Finfish, shellfish, and other marine or freshwater organisms;
1556	b. Birds and other wildlife that use the air and water resources;
1557	c. Air and water quality; and
1558	d. Land and water resources;
1559	2. Recommendations for minimizing any adverse economic, fiscal, or environmental
1560	impacts; and
1561	3. An examination of the secondary environmental effects of induced economic
1562	development due to the drilling and production.
1563	C. Upon receipt of an environmental impact assessment, the Department of Mines,
1564	Minerals and Energy shall notify the Department of Environmental Quality to coordinate a
1565	review of the environmental impact assessment. The Department of Environmental Quality
1566	shall:
1567	1. Publish in the Virginia Register of Regulations a notice that is sufficient to identify
1568	the environmental impact assessment and providing provides an opportunity for public review
1569	of and comment on the assessment. The period for public review and comment shall not be less
1570	than 30 days from the date of publication;
1571	2. Submit the environmental impact assessment to all appropriate state agencies to
1572	review the assessment and submit their comments to the Department of Environmental Quality;
1573	and
1574	3. Based upon the review by all appropriate state agencies and the public comments

received, submit findings and recommendations to the Department-of Mines, Minerals and

Energy, within 90 days after notification and receipt of the environmental impact assessment from the Department.

- D. The Department of Mines, Minerals and Energy may shall not grant a permit under § 45.1-361.29 45.2-xxx until it has considered the findings and recommendations of the Department of Environmental Quality.
- E. The Department of Environmental Quality shall, in conjunction with other state agencies and in conformance with the Administrative Process Act (§ 2.2-4000 et seq.), develop criteria and procedures to assure the orderly preparation and evaluation of environmental impact assessments required by this section.
- F. A person may drill an exploratory well or a gas well in any area of Tidewater Virginia where drilling is not prohibited by the provisions of subsection A only if:
- 1. For directional drilling, the person has the permission of the owners of all lands to be directionally drilled into;
- 2. The person files an oil discharge contingency plan and proof of financial responsibility to implement the plan, both of which have been already filed with and approved by the State Water Control Board. For purposes of this section, the such oil discharge contingency plan shall comply with the requirements set forth in § 62.1-44.34:15. The State Water Control Board's regulations governing the amount of any financial responsibility required shall take into account the type of operation, location of the well, the risk of discharge or accidental release, the potential damage or injury to state waters or sensitive natural resource features or the impairment of their beneficial use that may result from discharge or release, the potential cost of containment and cleanup, and the nature and degree of injury or interference with general health, welfare and property that may result from discharge or accidental release;
- 3. All land-disturbing activities resulting from the construction and operation of the permanent facilities necessary to implement the contingency plan and the area within the berm will be located outside of those areas any area described in subsection A;

1628

1602 4. The drilling site is stabilized with boards—or, gravel, or other materials—which that will 1603 result in minimal amounts of runoff; 1604 5. Persons certified in blowout prevention are present at all times during drilling; 1605 6. Conductor pipe is set as necessary from the surface; 1606 7. Casing is set and pressure grouted from the surface to a point at least 2500 feet below 1607 the surface or 300 feet below the deepest known ground water, as defined in § 62.1-255, for a 1608 beneficial use, as defined in § 62.1-10, whichever is deeper; 1609 8. Freshwater-based drilling mud is used during drilling; 1610 9. There is no onsite disposal of drilling muds, produced contaminated fluids, waste 1611 contaminated fluids. or other contaminated fluids; 1612 10. Multiple blow-out preventers are employed; and 1613 11. The person complies with all requirements of Chapter 22.1 xx (§ 45.1 361.1 45.2-1614 xxx et seq.) of Title 45.1 and regulations promulgated adopted thereunder. 1615 G. The provisions of subsection A and subdivisions F 1 and 4 through 9 shall be 1616 enforced consistent with the requirements of Chapter 22.1 xx (§ 45.1-361.1 45.2-xxx et seq.) of 1617 Title 45.1. 1618 H. In the event that If exploration activities in Tidewater Virginia result in a finding by 1619 the Director-of the Department of Mines, Minerals and Energy that production of commercially 1620 recoverable quantities of oil is likely and imminent, the Director-of the Department of Mines, 1621 Minerals and Energy shall notify the Secretary of Commerce and Trade and the Secretary of 1622 Natural Resources. At that time, the Secretaries shall develop a joint report to the Governor and 1623 the General Assembly assessing the environmental risks and safeguards; transportation issues; 1624 state-of-the-art oil production well technology; economic impacts; regulatory initiatives; 1625 operational standards; and other matters related to the production of oil in the region. No 1626 permits permit for an oil production-wells well shall be issued until (i) the Governor has had an

opportunity to review the report and make recommendations, in the public interest, for

legislative and regulatory changes, (ii) the General Assembly, during the next upcoming regular

session, has acted on the Governor's recommendations or on its own initiatives, and (iii) any resulting legislation has become effective. The report by the Secretaries and the Governor's recommendations shall be completed within 18 months of the notification of the Secretaries of the findings of the Director of the Department of Mines, Minerals and Energy.

Drafting note: Existing § 62.1-195.1 is divided into two proposed sections to separate two distinct topics. The bulk of the existing section, from the second sentence to the end of the section, restricts drilling in Tidewater Virginia and is retained as this proposed section. The terms in the phrase "oil or gas" are reversed for consistency with the rest of the chapter. Proposed subsection A is reorganized for clarity and the prohibitory language in that subsection is recast in affirmative form consistent with current drafting practice. Other technical changes are made for clarity, including changes to make the use of "shall" and "may" consistent and changes pursuant to § 1-227, which states that throughout the Code any word used in the singular includes the plural and vice versa.

§ 62.1-195.3 45.2-xxx. Hydraulic fracturing; groundwater management area.

No person shall conduct any hydraulic fracturing in any well that has been drilled through any portion of a groundwater management area declared by regulation prior to January 1, 2020, pursuant to the provisions of the Ground Water Management Act of 1992 (§ 62.1-254 et seq.). For purposes of this section, "hydraulic fracturing" means the treatment of a well by the application of hydraulic fracturing fluid, including a base fluid and any additive, under pressure for the express purpose of initiating or propagating fractures in a target geologic formation to enhance production of oil or natural gas.

Drafting note: No change.

Article 5.

1653 Replacement of Water by Gas Well Operators.

Drafting note: Existing Article 4, relating to replacement of water by gas well operators, is retained.

§-45.1-361.43 45.2-xxx. Operator's right to sample water and quality.

An operator shall have the right to enter upon surface land at reasonable times and in a reasonable manner to obtain samples of water from any water wells well that are is (i) located within 1,320 feet of a proposed or existing gas well and (ii) actually being utilized by the surface owner or occupant for domestic use. If the surface owner or occupant refuses to allow the operator to sample or causes the operator to be prevented from sampling any such water well, the operator shall promptly notify the Department of such refusal or prevention. The Department shall maintain a record of such notifications. In the event of such a refusal or prevention, the surface owner shall not be entitled to the remedies set forth in § 45.1 361.44 45.2-xxx.

Drafting note: The reference to "quality" is removed from the catchline because it is not mentioned in the section. Technical changes are made pursuant to § 1-227, which states that throughout the Code any word used in the singular includes the plural and vice versa.

§ 45.1-361.44 45.2-xxx. Replacement of water supply.

If any water supply of a surface owner who obtains all or part of his supply of water for domestic use from a water well has been materially affected by contamination or partial or complete interruption proximately resulting from a gas well operation within 1,320 feet of the water well, the operator of such gas well shall promptly provide a replacement water supply which that shall be capable of meeting the uses such water supply met prior to the contamination or partial or complete interruption.

Drafting note: Language is updated for modern usage.
